### INDEPENDENT AUDITORS' REPORT

Honorable County Executive and County Legislature County of Oneida, New York:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Oneida, New York (the "County"), as of and for the year ended December 31, 2020 (with the Mohawk Valley Community College for the fiscal year ended August 31, 2020), and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

The County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Oneida-Herkimer Solid Waste Management Authority ("OHSWMA") and the Mohawk Valley Community College ("MVCC"), which are shown as discretely presented component units. We also did not audit the financial statements of the Oneida Tobacco Asset Securitization Corporation ("OTASC"), which represents 35.4 percent and 19.9 percent, respectively, of the assets and revenues of the total nonmajor governmental funds. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for OHSWMA, MVCC and OTASC, is based solely on the reports of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the OTASC were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 2 to the financial statements, during the year ended December 31, 2020, the County implemented Governmental Accounting Standards Board ("GASB") Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The Supplementary Information, as listed in the table of contents, and the Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations ("CFR") Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information, as listed in the table of contents, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, the Supplementary Information, as listed in the table of contents, and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 7, 2021 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Dreochee & Malesti CLP September 7, 2021

### Management's Discussion and Analysis Year Ended December 31, 2020

As management of the County of Oneida (the "County"), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the year ended December 31, 2020. We encourage the reader to consider the information contained in this analysis in conjunction with additional information that we have furnished in the County's financial statements, which follow this narrative. For comparative purposes, certain amounts have been reclassified to conform to the current year's presentation.

### **Financial Highlights**

- The assets and deferred outflows of resources of the County's primary government exceeded total liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$77,723,745 (net position). This consists of \$154,869,004 net investment in capital assets, \$13,118,520 restricted for specific purposes, offset by an unrestricted net position of \$(90,263,779).
- The primary government's total net position decreased by \$17,874,859 during the current fiscal year. Governmental activities decreased net position by \$16,647,860, while the net position of business-type activities decreased by \$1,226,999.
- At December 31, 2020, the County's governmental funds reported combined ending fund balances of \$44,869,187, a decrease of \$22,023,108 in comparison with the prior year. Of this amount, the Capital Projects Fund fund balance decreased \$17,268,086.
- At the end of the current fiscal year, unrestricted fund balance (the total of committed, assigned and unassigned fund balances) for the General Fund was \$35,970,084 or 9.7 percent of total General Fund expenditures and transfers out.
- The County's governmental activities' total bonded debt, excluding that of OTASC, increased \$735,034 due to the issuance of public improvement serial bonds in the amount of \$18,522,499, partially offset by scheduled principal payments of \$17,787,465. The County's business-type activities' total bonded debt and EFC notes payable increased \$27,836,189 due to the County drawing down EFC notes in the amount of \$4,051,347, and the issuance of two EFC bonds in the amounts of \$55,000,000 and \$5,000,000, respectively, partially offset by scheduled principal payments and refunded notes in the amount of \$36,215,158.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) governmental-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide financial statements—The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets, liabilities, and deferred inflows/outflows of resources, with the differences reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to remove all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government support, education, public safety, health, transportation, economic assistance and opportunity, culture and recreation, and home and community services. The business-type activities of the County include the Sewer Fund and the Workers' Compensation Fund.

The government-wide financial statements include, not only the County itself (known as the *primary government*), but also a legally separate college (Mohawk Valley Community College) and a legally separate authority (Oneida-Herkimer Solid Waste Management Authority) for which the County is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 15-16 of this report.

**Fund financial statements**—A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and the fiduciary fund.

Governmental funds—Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds' balance sheet and the governmental funds' statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains seven individual governmental funds including the activities of its blended component unit, the Oneida Tobacco Asset Securitization Corporation ("OTASC") as a governmental fund. General, Debt Service and Capital Projects Fund information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 17-20 of this report.

**Proprietary funds**—The County maintains two individual proprietary funds. Enterprise Funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its sewer operations and to account for the operation of the workers' compensation public entity risk pool.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the Sewer Fund and Workers' Compensation Fund which are considered to be major funds of the County.

The basic proprietary fund financial statements can be found on pages 21-24 of this report.

Fiduciary funds—Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The fiduciary funds are not reflected in the government-wide financial statements because the resources of the funds are not available to support the County's own programs. The County maintains one fiduciary fund, the Custodial Fund.

The Custodial Fund reports resources held by the County in a custodial capacity for individuals, private organizations and other governments.

The Fiduciary Fund financial statements can be found on pages 25-26 of this report.

**Notes to the financial statements**—The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-78 of this report.

**Other information**—In addition to the basic financial statements and accompanying notes, this report also presents certain *Required Supplementary Information* concerning the County's net pension liability/(asset), the changes in the County's other postemployment benefits ("OPEB") obligation, and the County's budgetary comparison schedule for the General Fund. Required Supplementary Information and the related notes to the Required Supplementary Information can be found on pages 79-89 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds is presented immediately following the Required Supplementary Information on pages 90-91.

Finally, the Federal Awards Information presents the County's Schedule of Expenditures of Federal Awards and can be found on pages 92-103 of this report.

### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County's primary government, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$77,723,745 at the close of the most recent fiscal year, as compared to \$95,598,604 at the close of the fiscal year ended December 31, 2019.

Table 1—Condensed Statements of Net Position—Primary Government

	Government	al Activities	Business-ty	pe Activities	Total			
	Decemb	ber 31,	Decem	ber 31,	December 31,

Current liabilities	93,387,100	73,294,195	6,463,568	5,591,351	99,850,668	78,885,546		
Noncurrent liabilities	462,367,704	387,213,341	259,792,081	230,079,958	722,159,785	617,293,299		
Total liabilities	555,754,804	460,507,536	266,255,649	235,671,309	822,010,453	696,178,845		
Deferred inflows of resources	18,822,840	27,241,031	581,239	708,075	19,404,079	27,949,106		
Net position:								
Net investment in								
capital assets	126,595,237	112,829,788	28,273,767	26,997,277	154,869,004	139,827,065		
Restricted	6,142,827	6,481,712	6,975,693	7,827,848	13,118,520	14,309,560		
Unrestricted	(102,104,998)	(72,030,574)	11,841,219	13,492,553	(90,263,779)	(58,538,021)		
Total net position	\$ 30,633,066	\$ 47,280,926	\$ 47,090,679	\$ 48,317,678	\$ 77,723,745	\$ 95,598,604		

The largest portion of the County's net position, \$154,869,004, reflects its investment in capital assets (e.g. land, buildings, infrastructure, and machinery and equipment) net of any accumulated depreciation and less related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens. Accordingly, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided by other sources, as the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position, \$13,118,520, represents resources subject to external restrictions on how they may be used and are reported as restricted net position. The remaining category of total net position, \$(90,263,779), is considered to be unrestricted net position. The deficit is the result of having long-term commitments including bonds payable, other postemployment benefits and the net pension liability that are greater than currently available resources. Payments for these liabilities will be budgeted in the year actual payment is made.

Table 2, as presented on the following page, shows the changes in net position for the years ended December 31, 2020 and December 31, 2019.

Table 2—Condensed Statements of Changes in Net Position—Primary Government

	Government	al Activities	Business-typ	e Activities	Total			
	Year Ended I	December 31,	Year Ended D	December 31,	Year Ended December 31,			
	2020	2019	2020	2019	2020	2019		
Revenues:								
Program revenues	\$ 188,621,325	\$ 205,377,034	\$ 36,476,166	\$ 45,443,533	225,097,491	250,820,567		
General revenues	221,745,567	224,588,824	134,478	279,157	221,880,045	224,867,981		
Total revenues	410,366,892	429,965,858	36,610,644	45,722,690	446,977,536	475,688,548		
Total expenses	427,014,752	417,762,696	37,837,643	30,265,020	464,852,395	448,027,716		
Change in net position	(16,647,860)	12,203,162	(1,226,999)	15,457,670	(17,874,859)	27,660,832		
Net position—beginning	47,280,926	35,077,764	48,317,678	32,860,008	95,598,604	67,937,772		
Net position—ending	\$ 30,633,066	\$ 47,280,926	\$ 47,090,679	\$ 48,317,678	\$ 77,723,745	\$ 95,598,604		

Governmental activities—Governmental activities decreased the County's net position by \$16,647,860. This is primarily due to allocable employee benefit expenses related to an increase in the County's net pension and OPEB liabilities.

A summary of revenues for governmental activities for the years ended December 31, 2020 and 2019 is presented in Table 3 below.

Table 3—Summary of Sources of Revenues—Governmental Activities

		Year Ended I	Dec	ember 31,		Increase/(Decrease)		
	2020			2019		Dollars	Percent (%)	
Charges for services	\$	51,337,452	\$	49,915,997	\$	1,421,455	2.8	
Operating and capital grants		137,283,873		155,461,037		(18,177,164)	(11.7)	
Property taxes and tax items		69,380,691		69,193,765		186,926	0.3	
Non-property taxes		148,349,782		150,283,607		(1,933,825)	(1.3)	
Use of money and property		1,321,107		1,976,120		(655,013)	(33.1)	
Sale of property and								
compensation for loss		984,464		1,259,240		(274,776)	(21.8)	
Other	_	1,709,523		1,876,092		(166,569)	(8.9)	
Total revenues	\$	410,366,892	\$	429,965,858	\$	(19,598,966)	(4.6)	

The most significant sources of revenues for governmental activities for the year ended December 31, 2020 were non-property taxes of \$148,349,782, or 36.2 percent of total revenue, operating and capital grants and contributions of \$137,283,873, or 33.5 percent of total revenue; and property taxes and tax items of \$69,380,691, or 16.9 percent of total revenue. For the year ended December 31, 2019 the most significant sources of revenues for governmental activities were operating and capital grants and contributions of \$155,461,037, or 36.2 percent of total revenue; non-property taxes of \$150,283,607, or 35.0 percent of total revenue, and property taxes and tax items of \$69,193,765, or 16.1 percent of total revenue

During the year ended December 31, 2020, total revenues decreased by 4.6 percent. This is due to a decrease in operating and capital grants due to a one-time donation of airport property and machinery and equipment to the County in the prior year, in addition to a decrease in certain state aid programs including gaming revenue share.

A summary of program expenses of governmental activities for the years ended December 31, 2020 and 2019 is presented in Table 4 below.

Table 4—Summary of Program Expenses—Governmental Activities

	Year Ended December 31,					Increase/(Decrease)		
	2020		2019		Dollars		Percent (%)	
General government support	\$	94,063,804	\$	87,372,611	\$	6,691,193	7.7	
Education		22,213,955		23,519,809		(1,305,854)	(5.6)	
Public safety		60,714,608		55,718,831		4,995,777	9.0	
Health		22,308,641		21,002,760		1,305,881	6.2	
Transportation		49,053,224		46,131,142		2,922,082	6.3	
Economic assistance and opportunity		159,475,222		167,660,036		(8,184,814)	(4.9)	
Culture and recreation		840,928		1,373,557		(532,629)	(38.8)	
Home and community services		6,398,918		4,654,350		1,744,568	37.5	
Interest and fiscal charges	_	11,945,452	_	10,329,600		1,615,852	15.6	
Total program expenses	\$	427,014,752	\$	417,762,696	\$	9,252,056	2.2	

The County's most significant expense categories for governmental activities for the year ended December 31, 2020 were economic assistance and opportunity (primarily composed of social service costs) of \$159,475,222, or 37.3 percent of program expenses, general government support of \$94,063,804, or 22.0 percent of program expenses, and public safety of \$60,714,608, or 14.2 percent of program expenses. Similarly, for the year ended December 31, 2019 the County's most significant expense categories for governmental activities for the year ended December 31, 2019 were economic assistance and opportunity (primarily composed of social service costs) of \$167,660,036, or 40.1 percent of program expenses, general government support of \$87,372,611, or 20.9 percent of program expenses, and public safety of \$55,718,831, or 13.3 percent of program expenses.

During the year ended December 31, 2020, expenses increased 2.2 percent. Overall expenses increased as a result of an increase in overall allocable employee benefits related to the net pension and OPEB liabilities, partially offset by savings in economic assistance and opportunity related to a reduced County share of Federal Medical Assistance Programs ("FMAP").

**Business-type activities**—Business-type activities (Sewer Fund and Workers' Compensation Fund) decreased the County's total net position by \$1,226,999.

A summary of sources of revenues and expenses for the County's business-type activities for the years ended December 31, 2020 and December 31, 2019 is presented in Table 5 on the following page.

Table 5—Summary of Sources of Revenues and Expenses—Business-type Activities

	Year Ended December 31,				Increase/(Decrease)			
		2020		2019		Dollars	Percent (%)	
Revenues:								
Charges for services—Sewer Fund	\$	17,589,371	\$	16,622,523	\$	966,848	5.8	
Charges for services—Workers' Compensation Fund		13,425,623		14,728,589		(1,302,966)	(8.8)	
Capital grants and contributions—Sewer Fund		5,461,172		14,092,421		(8,631,249)	(61.2)	
Use of money and property		118,978		279,157		(160,179)	(57.4)	
Use of money and property		15,800				15,800	100.0	
Total revenues	\$	36,610,944	\$	45,722,690	\$	(9,111,746)	(19.9)	
Expenses:								
Sewer Fund expenses	\$	24,343,147	\$	15,371,410	\$	8,971,737	58.4	
Workers' Compensation Fund expenses		13,494,496		14,893,610		(1,399,114)	(9.4)	
Total expenses	\$	37,837,643	\$	30,265,020	\$	7,572,623	25.0	

At December 31, 2020, the most significant source of revenues relating to the County's business-type activities is program revenues, including Sewer departmental income and Workers' Compensation charges for services. Total revenue relating to the County's business-type activities decreased 19.9 percent from the year ended December 31, 2019, primarily due to variable capital grant funding received each year related to the Sewer Fund.

Total expenses increased by \$7,572,623, or 25.0 percent. This increase is primarily related to an increase in depreciation expense related to completed construction projects being placed into service.

### **Financial Analysis of the Governmental Funds**

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds—The focus of the County's governmental funds is to provide information on nearterm inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the County itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the County's Legislature.

At December 31, 2020, the County governmental funds reported combined ending fund balances of \$44,869,187, a decrease of \$22,023,108 in comparison with the prior year. Of this amount, \$9,706,449, constitutes *unassigned fund balance*, which is available for spending at the County's discretion. The remainder of fund balance is either *nonspendable*, *restricted*, *committed or assigned* to indicate that it is: (1) restricted for particular purposes, \$8,286,538, (2) committed for particular purposes, \$16,150,000 or (3) assigned for particular purposes, \$10,726,200.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unrestricted fund balance (the total of committed, assigned and unassigned fund balances) of the General Fund was \$35,970,084, while total fund balance was \$36,003,487. The General Fund fund balance decreased \$4,208,072 from the prior year. As a measure of the General Fund's liquidity, it may be useful to compare both *unrestricted fund balance* and total fund balance to total fund expenditures and transfers out. *Unrestricted fund balance* represents approximately 9.7 percent of total General Fund expenditures and transfers out.

The fund balance of the Debt Service Fund decreased \$340,640 as a result of current year activity. Ending fund balance in the Debt Service Fund amounted to \$1,300,203 at December 31, 2020.

The fund balance of the Capital Projects Fund decreased \$17,268,086 primarily as a result of capital outlay expenditures exceeding revenues and other financing sources. Ending fund balance in the Capital Projects Fund amounted to \$2,143,711 at December 31, 2020.

**Proprietary funds**—The County's proprietary funds provide the same type of information found in the governmental-wide financial statements, but in more detail.

The unrestricted net position of Sewer Fund at December 31, 2020 amounted to \$11,841,219 and the total net position was \$47,090,679. During the year ended December 31, 2020, total net position decreased \$1,226,999 as a result of operating expenses exceeding operating revenues.

### **General Fund Budgetary Highlights**

The County's General Fund budget generally contains budget amendments during the year. The budget is allowed to be amended upward (increased) for prior year's encumbrances since the funds were allocated under the previous year's budget, and the County has appropriately assigned an equal amount of fund balance at year-end for this purpose. Furthermore, the budget is allowed to be amended upward (increased) for additional current year appropriations supported by an increase in budgeted revenues. A budgetary comparison schedule within the required supplementary information section of this report has been provided to demonstrate compliance with the budget.

A summary of the General Fund results of operations for the year ended December 31, 2020 is presented in Table 6 below.

**Table 6—Summary of General Fund Results of Operations** 

	Budgeted Amounts						Variance with
	Original		Final		Actual		Final Budget
Revenues and other financing sources Expenditures and other financing uses	\$	350,627,069 360,550,180	\$	394,366,134 404,367,129	\$	366,499,716 370,707,787	\$ (27,866,418) 33,659,342
Excess (deficiency) of revenues							
and other financing sources over							
expenditures and other financing uses	\$	(9,923,111)	\$	(10,000,995)	\$	(4,208,071)	\$ 5,792,924

**Original budget compared to final budget**—During the year, the budget is modified for new revenues. The largest supplemental appropriation was to account for the gross sales tax proceeds received from New York State that are forwarded by the County to the towns and villages. The 2020 adjustment was for \$41,862,681 and increased non-property tax items revenue and the general government support expenditures.

**Final budget compared to actual results**—The General Fund had an unfavorable variance from final budgeted revenues of \$27,866,418. The largest negative variances were recognized in state aid, which are primarily related to economic assistance and opportunity programs and were offset by a decrease in spending. The General Fund had a favorable variance from final budgetary appropriations of \$33,659,342. Positive variances were realized in all functional expenses, the largest variance was in economic assistance and opportunity as a result of the County budgeting for social services program costs that were less than anticipated.

### **Capital Assets and Debt Administration**

Capital assets—The County's investment in capital assets for its governmental and business-type activities as of December 31, 2020 amounts to \$354,538,055 and \$264,325,296, respectively (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land improvements, buildings and building improvements, infrastructure, and equipment.

Capital assets, net of depreciation, for the governmental activities and business-type activities at the years ended December 31, 2020 and 2019 are presented below in Table 7:

Table 7—Summary of Capital Assets (Net of Depreciation)

		Government	al A	ctivities	Business-type Activities		Total					
		Decem	ber	31,		December 31,		December 31,			31,	
		2020		2019	2020		2019		2020		2019	
Land	\$	12,239,612	\$	12,239,612	\$	-	\$	-	\$	12,239,612	\$	12,239,612

Buildings and building	g											
improvements		185,265,714		155,185,411		137,940,879		140,300,342		323,206,593		295,485,753
Infrastructure		121,758,418		108,220,580		38,307,498		2,474,638		160,065,916		110,695,218
Equipment		29,509,070		30,861,252		1,692,201		1,613,894		31,201,271		32,475,146
Total	\$	354,538,055	\$	327,803,349	\$	264,325,296	\$	235,063,090	\$	618,863,351	\$	562,866,439

The County's infrastructure assets are recorded at historical cost in the government-wide financial statements. The County has elected to depreciate its infrastructure assets. Additional information on County's capital assets can be found in Note 5 of this report.

**Long-term liabilities**—The County currently has approximately \$500 million in total bonded debt for functions considered governmental and business-type activities. This includes serial bonds issued on behalf of Mohawk Valley Community College and serial bonds (and accreted interest on capital appreciation bonds) issued by the Oneida Tobacco Asset Securitization Corporation (the "OTASC").

A summary of the County's long-term liabilities at December 31, 2020 and 2019 is presented in Table 8 below:

Table 8—Debt and Long-term Liabilities

	 Government	tal Ac	tivities	Business-type Activities				Total				
	 Decem	iber 3	1,		December 31,			December 31,				
	 2020		2019		2020		2019		2020		2018

For additional information on the County's long-term debt, refer to Note 11 of this report.

### **Economic Factors and Next Year's Budget**

The first half of calendar year 2021 saw a significant rebound from the major revenue stream declines in 2020. Sales tax collections and Oneida Indian Nation gaming revenues have generated double digit percentage increases over 2020 and 2019 revenue amounts for the same period. New York State has ended their policy of withholding 20 percent from all state aid payments, and has reimbursed the County for the vast majority of the 20 percent originally withheld from 2020 State reimbursements.

However, as of this writing, the County is experiencing a resurgence of the COVID virus, particularly the Delta variant. It remains to be seen to what extent this may again create havoc with the economy and County finances for the remainder of the year.

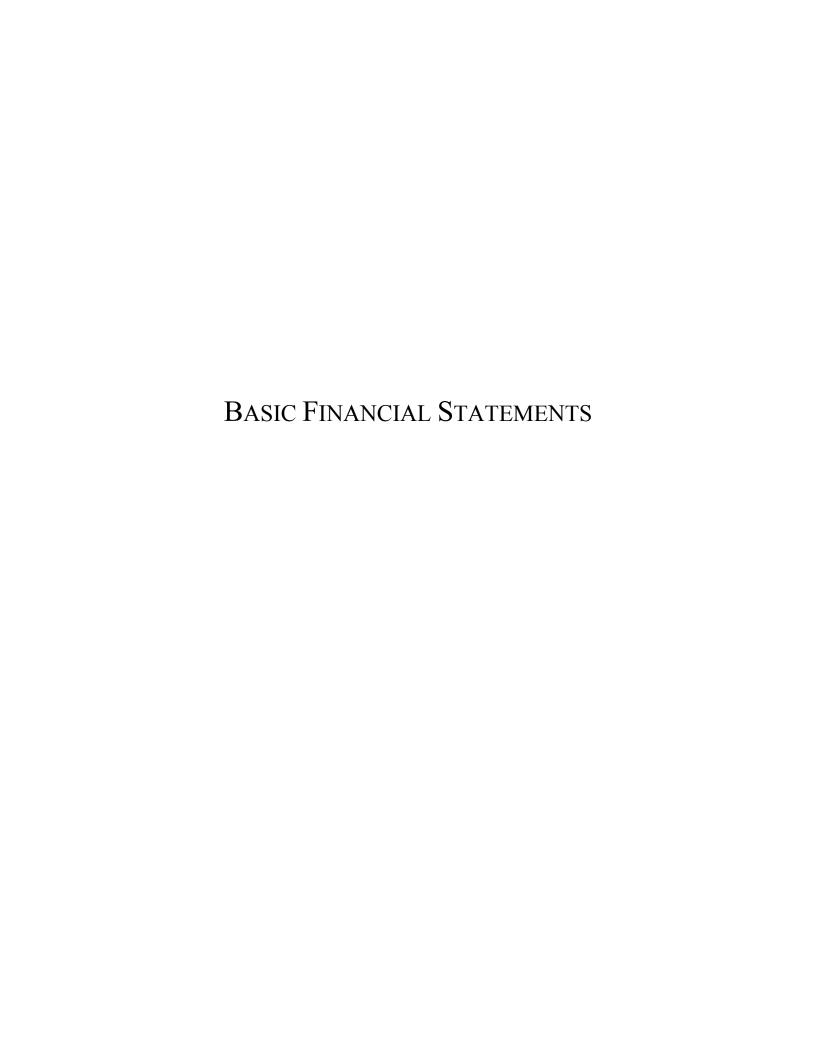

In June of 2021 the County received a payment of approximately \$22.2 million for the first half of its allocation of Federal American Recovery Plan funding. The same amount is expected to be received in the spring of 2022. This will help the County recover the 2020 fund balance reductions due to the pandemic and support ongoing 2021 COVID related costs including re-establishing PODs for vaccine booster shots. At this time the County has not finalized plans for allocating these funds.

Notwithstanding the uncertainty of the Delta variant, the County should meet its 2021 budget projections, and maybe surpass them. The 2022 budget is currently in process and not complete as of the issuance of the 2020 financial statements.

### **Requests for Information**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Joseph J. Timpano, County Comptroller, 800 Park Avenue, Utica, New York 13501.

## Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances—Governmental Funds to the Government-wide Statement of Activities For the Year Ended December 31, 2020

Amounts reported for governmental activities in the statement of activities (page 16) are different because:

Net change in fund balances (deficits)—total governmental funds (page 19)

\$ (22,023,108)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense and loss on disposal in the current period.

Capital asset additions \$ 52,219,755 Loss on disposal of assets (143,370) Depreciation expense (25,341,679)

Depreciation expense (25,341,679) 26,734,706

For refunding bonds, the difference between the reacquisition price and the net carrying amount of the old debt should be reported as a deferred charge on the government-wide statements and recognized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter.

(143,200)

Certain tax and other revenues in the governmental funds are deferred or not recognized because they are not available soon enough after year end to pay for the current period's expenditures. On the accrual basis, however, these are recognized regardless of when it is collected.

Change in deferred inflows of resources—property taxes \$ 2,715,627 Change in long-term receivable \$ (2,500,000) 215,627

Net differences between pension contributions recognized on the fund financial statements and the government-wide financial statements are as follows:

County pension contributions \$ 11,734,862 Cost of benefits earned net of employee contributions (25,596,961) (13,862,099)

Deferred outflows and inflows of resources relating to OPEB result from actuarial changes in the census and changes in medical premiums that are different than expected healthcare cost trend rates and due to changes in assumptions and other inputs. These amounts are shown net of the current year's amortization.

13,102,842

Retainages payable are not paid with current financial resources and are not reported as expenditures in the funds.

(1,640,562)

In the statement of activities, interest expense is recognized as it accrues, regardless of when it is paid.

(893,899)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal on long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Additionally, in the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). The net effect of these differences in the treatment of long-term debt and the related items is as follows:

Issuance of bonds payable	\$ (18,522,499)
Repayment of bonds payable	17,787,465
Amortization of bond premium	523,044
Repayment of OTASC bonds	500,000
Accreted interest on OTASC bonds	(2,931,820)
Amortization of OTASC bond discount	(15,179)
Issuance of capital lease	(1,349,000)
Repayment of capital lease	1,338,360
Change in workers' compensation	1,117,105
Change in compensated absences	(775,170)
Change in other post-employment benefits obligation	(16,460,245)
Change in retirement obligations	771,095
Change in claims and judgments	(121,323)

Change in net position of governmental activities

(18,138,167) \$ (16,647,860)

Notes to the Financial Statements December 31, 2020

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the County of Oneida, New York (the "County") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting principles are described below.

#### Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

#### Reporting Entity

The County was established in 1798 and is governed by the County Charter, County Law, other general laws of the State of New York and various local laws. The County Charter provides for a County Executive form of government. The County Legislature, which is the legislative body responsible for the overall operation of the County, consists of 23 legislators, one from each of the County's legislative districts. The County Executive is the Chief Executive Officer of the County. The County Comptroller is the Chief Fiscal Accounting and Auditing Officer of the County.

Independently elected officials of the County include:

County Executive District Attorney
County Legislators (23) County Clerk
County Comptroller Sheriff

The County provides mandated social service programs such as Medicaid, Temporary Assistance for Needy Families and Safety Net. The County also provides services and facilities in the areas of culture, recreation, education, police, youth, health, senior services, roads, and sanitary sewerage. These general government programs and services are financed by various taxes, state and federal aid and departmental revenue (which are primarily comprised of service fees and various types of program-related charges).

The accompanying financial statements present the government and its component units, entities for which the primary government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

**Discretely Presented Component Units**—The component unit columns in the basic financial statements include the financial data of the County's two discretely presented component units. These units are reported in a separate column to emphasize that they are legally separate from the County.

Oneida-Herkimer Solid Waste Management Authority—The Oneida-Herkimer Solid Waste Management Authority (the "Authority" or "OHSWMA") was established in 1988 as a public benefit corporation under New York State Public Authorities Law to provide solid waste management services and to plan and implement a modern integrated solid waste management system for the benefit of Oneida and Herkimer counties (the counties). The Authority's initial capitalization for the facilities as well as short-term funding of administrative and operating costs were provided from the issuance of approximately \$50 million of Solid Waste System Revenue Bonds. The Authority currently owns and operates nine operational solid waste management facilities and one closed facility. These facilities are as follows: an administration facility, a recycling center, three solid waste transfer stations, a green waste composting facility, a land clearing debris facility, a household hazardous waste facility, a regional landfill, and a closed ash landfill.

The Authority's ten-member board, which consists of four members appointed by the County Executive and confirmed by the County Legislature, three members by the County Legislature, and three by Herkimer County, has complete responsibility for its management and financial operations. County officials do not exercise oversight responsibility for the Authority operations, and the County does not provide assistance to the Authority. However, the County is obligated to finance deficits, if necessary, and the County is a joint guarantor with Herkimer County on the revenue bonds disclosed in Note 11.

Based upon the financial obligations which the County assumes and because the County appoints the voting majority to the Authority's board, the Authority is included as a discretely presented component unit within the County's basic financial statements. All of the financial data for the Authority was derived from the independently audited financial statements. Certain amounts have been reclassified to conform to the County's presentation. The financial statements of the Authority can be obtained at its administrative offices located at 1600 Genesee Street, Utica, New York 13502.

Mohawk Valley Community College—The Mohawk Valley Community College (the "College" or the "MVCC") was founded in 1946 with the County as the local sponsor under provisions of Article 126 of the New York State Education Law. MVCC is administered by a Board of Trustees consisting of ten voting members. Five are appointed by the County Executive and confirmed by the Legislature, four by the Governor, and one student is elected by the student body. The Community College's budget is subject to the approval of the County Executive and the County Legislature, with the County providing substantial funding for the operation of the College. MVCC is included based on its August 31<sup>st</sup> fiscal year end. The annual financial report can be obtained from the Vice President for Administrative Services, 1101 Sherman Drive, Utica, New York 13502.

The financial statements of MVCC have been prepared on the accrual basis.

The financial statements of MVCC include three discretely presented component units; the Auxiliary Services Corporation of Mohawk Community College, Inc., the Mohawk Valley Community College Dormitory Corporation and the Mohawk Valley Community College Foundation, Inc.

**Blended Component Unit**—The following blended component unit is a legally separate entity from the County, but is, in substance, part of the County's operations and therefore data from this unit is combined with data of the primary government.

Oneida Tobacco Asset Securitization Corporation—The Oneida Tobacco Asset Securitization Corporation ("OTASC") is a special purpose, bankruptcy remote, local development corporation organized under the Not-for-Profit Corporation Law of the State of New York and is an instrumentality of, but separate and apart from, the County. Although legally separate and independent of the County, OTASC is considered an affiliated organization and, therefore, is reported as a blended component unit of the County. The annual financial report may be obtained by writing the Comptroller's Office, Oneida County, 800 Park Avenue, Utica, New York 13501.

#### Basis of Presentation—Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the County has two discretely presented component units. Their financial data are shown in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the County's sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

#### Basis of Presentation—Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary and blended component unit. Separate statements for each fund category—governmental, proprietary and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and proprietary funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The County reports the following major governmental funds:

- General Fund—The General Fund is the principal operating fund of the County and is used to account for all financial resources except those required to be accounted for in other funds.
- Debt Service Fund—The Debt Service Fund is used to account for and report the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs (except those presented in the discretely presented component units).
- Capital Projects Fund—The Capital Projects Fund is used to account for and report financial resources to be used for the acquisition and construction of the government's major capital facilities, other than those financed by proprietary funds.

The County reports the following nonmajor governmental funds:

Special Revenue Funds—The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The following Special Revenue Funds are utilized:

- Special Grant Fund—This fund is used to account for funds received under the Job Training Partnership Act/Workforce Investment Opportunity Act.
- County Road Fund—This fund is used to account for expenditures for highway purposes authorized by Section 114 of the Highway Law.
- Road Machinery Fund—This fund is used to account for the purchase, repair, maintenance and storage of highway machinery, tools and equipment pursuant to Section 133 of the Highway Law.
- Oneida Tobacco Asset Securitization Corporation—The Oneida Tobacco Asset Securitization Corporation ("OTASC") Fund is used to account for the receipt and disbursement of resources related to tobacco assets and related obligations.

The County reports two major proprietary funds as follows:

- Sewer Fund—This fund is used to account for operations and capital improvements of the County's sewer district.
- Workers' Compensation Fund—The County uses this fund to account for workers' compensation insurance services for the County and communities within the County for which participants are charged fees to participate.

Additionally, the County reports the following fund type:

Fiduciary Funds—Fiduciary funds are used to account for the resources held on behalf of parties outside the County. The fiduciary funds are not reflected in the government-wide financial statements because the resources of the funds are not available to support the County's own programs. The County maintains one fiduciary fund, the Custodial Fund.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In the fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfer in the business-type activities column.

#### Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period, or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and net pensions, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 180 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds and fiduciary funds are reported using the *economic resources measurement focus* and use the *accrual basis* of accounting.

#### Assets, Liabilities, Deferred Inflows/Outflows of Resources and Net Position/Fund Balance

Cash, Cash Equivalents and Investments—Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity date of three months or less from date of acquisition. State statutes and various resolutions of the County Legislature govern the County's investment policies. Permissible investments include obligations of the U.S. Treasury and U.S. Government agencies, repurchase agreements and obligations of New York State or its localities. Investments are stated at fair value based on quoted market prices. The County's primary government reports no investments at December 31, 2020.

**Restricted Cash and Cash Equivalents**—Restricted cash represents unspent proceeds from debt, unearned revenues received for grants, accumulated surcharges for sewer projects, amounts to support restricted fund balances, amount related to worker's compensation, and amounts held on behalf of others.

**Deposits with Trustees**—Deposits with Trustees represent OTASC funds held in various types of investments accounts held by a Trust.

**Receivables**—Receivables are stated net of allowances for estimated uncollectible amounts. Intergovernmental receivables represent amounts owed to the County to reimburse it for expenditures incurred pursuant to state and federally funded programs and on behalf of the workers' compensation insurance participants.

**Prepaid Items**—Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets—Capital assets include property, buildings, equipment and infrastructure assets (e.g. roads, bridges, drainage systems and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The County defines capital assets as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are incurred.

The County depreciates capital assets using the straight-line method over the following estimated useful lives:

Assets	Years
Land improvements	20
Buildings and building improvements	15-50
Infrastructure	10-65
Equipment	5-25

The *capital outlays* character classification is employed only for expenditures reported in the Capital Projects Fund. Routine capital expenditures in the General Fund and other governmental funds are included in the appropriate functional category. At times, amounts reported as *capital outlays* in the Capital Projects Fund will also include non-capitalized, project-related costs (for example, furnishings).

*Unearned Revenue*—Certain amounts received have not been spent or otherwise used to meet the revenue recognition criteria for government-wide or fund financial purposes. At December 31, 2020, the County reported unearned revenues of \$745,529 and \$1,446,601 within the General Fund and County Road Fund, respectively.

Deferred Outflows/Inflows of Resources—In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has three items that qualify for reporting in this category. The first item is a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item is related to pensions reported in the government-wide financial statements, as well as within individual proprietary funds. This represents the effect of the net change in the County's proportion of the collective net pension liability, the difference during the measurement period between the County's contributions and its proportionate share of the total contribution to the pension systems not included in the pension expense, and any contributions to the pension system made subsequent to the measurement date. The third item is related to OPEB reported in the government-wide financial statements and represents the effects of the change in the County's proportion of the collective total OPEB liability and difference during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective total OPEB liability.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has four items which qualify for reporting in this category. The first two items represent unavailable revenues from two sources and arise only under the modified accrual basis of accounting: property taxes and long-term receivable related to Oneida Indian Nation ("Nation") settlement payments. These amounts will be recognized as revenue in the governmental funds in the period that the amounts become available. The last two items are reporting in the government-wide financial statements. The fourth item represents the effect of the net change in the County's proportion of the collective net pension liability and the difference during the measurement periods between the County's contributions and its proportionate share of total contributions to the pension systems not included in pension expense and is reported on the government-wide financial statements, as well as within individual proprietary funds. The final item represents the effects of the change in the County's proportion of the collective total OPEB liability and difference during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective net OPEB liability.

Net Position Flow Assumption—Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted—net position and unrestricted—net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted—net position to have been depleted before unrestricted—net position is applied.

Fund Balance Flow Assumptions—Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**Fund Balance Policies**—Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The County itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the County's highest level of decision-making authority. The County Legislature is the highest level of decision-making authority for the County that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as committed. The County Legislature ("Legislature") may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

# Revenues and Expenses/Expenditures

**Program Revenues**—Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues.

**Proprietary Funds Operating and Nonoperating Revenues and Expenses**—Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Sewer and Workers' Compensation Funds are charges to customers for sales and services. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The Sewer Fund recognizes revenue as services are provided.

**Property Taxes**—Real property tax levies are fully accrued at the beginning of the fiscal year and are received and accounted for in the General Fund. Accruals for "due to other funds" are recorded in the General Fund for the portion of the tax revenue allocated to other funds. The current year's property taxes are levied and the prior year's unpaid school taxes are re-levied on a warrant to collect taxes by December 31<sup>st</sup> based on the fully assessed value of real property within the County. The twenty-six towns are responsible for collection of the tax warrant until March 31<sup>st</sup>. At that time, settlement proceedings take place whereby the County becomes the collecting agent and the towns receive full credit for their entire levy. The County becomes the enforcement agent for tax liens on all County real property except property within the cities of Utica and Rome. The County has entered into agreements with these cities whereby the cities assess and collect all City and County taxes on property within each City and serve as enforcement agent for tax liens on such property. County taxes collected by the cities are remitted to the County periodically.

Uncollected property taxes assumed by the County as a result of the settlement proceedings are reported as receivables in the General Fund to maintain central control and provide for tax settlement and enforcement proceedings.

At December 31, 2020, the gross real property tax receivable relating to the County of \$22,150,691 is offset by an allowance for uncollectible taxes of \$170,657. Included in real property tax assets are current year returned village and school taxes of \$7,461,258, which are also included in liabilities to the villages and school districts to be paid no later than April 20, 2021. The remaining portion of tax assets is partially offset by deferred inflows of resources – property taxes of \$13,832,581 in the General Fund and represents an estimate of tax liens which will not be collected within the first sixty (60) days of the subsequent year.

Tax rates are calculated using assessments prepared by individual town and city assessors as adjusted by the New York State Board of Equalization and Assessment for the purpose of equalization. The total taxable assessed value of real property included in the tax levy of 2020 is approximately \$7.326 billion. The total County warrant, including all charge backs for 2020 was \$77.3 million. County tax rates vary by each assessing unit because assessing units often assess at different fractions of full value. The New York State statutory maximum tax limit is 1.5% of the 5-year average of the equalized assessment. The 2020 levy with allowable statutory exclusions represents approximately 30.74% of the constitutional tax limit for 2020.

Effective September 1, 1994, the County-wide sales tax was increased from seven percent to eight percent. The County received authorization to impose an additional 1.5% sales tax, with all proceeds to be retained by the County effective March 1, 2005. This rate was reduced to 1% on September 1, 2006, and in 2009 was further reduced to 0.75%. During the fiscal year ended December 31, 2011 the County received authorization to continue the 1% and 0.75% extension on its local share of sales tax for the period commencing December 1, 2011 and ending on December 1, 2016. During the fiscal year ended December 31, 2016 the County received authorization to continue the 1% and 0.75% extension on its local share of sales tax for the period commencing December 1, 2016 and ending on December 1, 2021. The County allocates a percentage of the sales tax to the cities, towns and villages within the County. The agreements with cities relating to calculation and distribution of their proportional share of sales tax are negotiated through December 1, 2021.

Compensated Absences—According to various union contracts, County employees are entitled to personal leave, sick leave, compensatory time, and vacations annually. Vacation time vests for both union and non-union employees to a maximum of 21 days. Accordingly, liabilities for vacation time of \$3,044,100 are reported as long-term debt for the governmental funds in the government-wide financial statements. These payments are also budgeted annually without accrual and expenditure will be recorded when paid. Similar liabilities related to services rendered to the Sewer Fund are included in accrued liabilities of the enterprise fund in the amount of \$59,751.

Additional accrued liabilities of \$85,952 and \$985,819 are reported within long-term debt for the governmental activities in the government-wide financial statements for the value of sick leave and compensatory time, respectively, which will eventually be paid the employee upon retirement. Likewise, liabilities of \$1,972 and \$34,415 for sick leave and compensatory time, respectively, are reported in the Sewer Fund.

Pensions—The County and its component units are mandated by New York State law to participate in the New York State Teacher's Retirement System ("TRS") and the New York State Local Employees' Retirement System ("ERS"). For purposes of measuring the net pension (asset)/liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans, and changes thereof, have been determined on the same basis as they are reported by the respective defined benefit pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. More information regarding pensions is included in Note 7.

Other Postemployment Benefits—In addition to providing pension benefits, the County provides retired employees with group health insurance benefits. The obligation of the County to contribute to the cost of providing this benefit has been established pursuant to legislative resolution and various collective bargaining agreements. More information is included in Note 8.

Interfund Revenues—The County allocates General Fund costs incurred in the general administration of the County to other funds based on their proportionate benefit of the total costs allocated. In 2020, the County has reported interfund revenues in the General Fund and nonmajor funds of \$215 and \$4,691,358, respectively representing an allocation of costs to various special revenue funds and the enterprise fund. The amounts are reported as general government support expenditures in the General Fund as well as in the benefiting funds.

#### Other

Oneida Indian Nation Agreement—On May 16, 2013, the Governor of the State of New York ("the State") announced an agreement between the State, the Oneida Indian Nation (the "Nation"), Oneida County and Madison County to settle land claims amounts due on real property taxes and provide future revenues to the State, the County and Madison County. The agreement also required the approval of the Department of the Interior. The agreement received all necessary approvals on March 4, 2014. Under the terms of the agreement, the County will receive \$2.5 million per year for 19.25 years in full satisfaction of all existing tax liens that they claim against the Nation and in full satisfaction of tax revenues of any kind that the County will not receive from the Nation in the future under the terms of the agreement or because of the trust status of Nation Land. This amount has been recorded as a long-term receivable offset by a deferred inflow of resources in the fund financial statements. \$30,625,000 is outstanding as of December 31, 2020. In addition, the County will receive 25% of the State's payment (the State's payment from the Nation will be based upon 25% of its net gaming revenue from its slot machines at the Turning Stone Casino and Resort in Vernon, New York, which is operated by the Nation).

**Estimates**—The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred outflows/inflows of resources, and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncements—During the year ended December 31, 2020, the County implemented GASB Statement No. 84, Fiduciary Activities. Additionally, the County early implemented GASB Statements No. 92, Omnibus 2020; and No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a suppression of GASB Statement No. 32. GASB Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments. GASB Statement No. 92 enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and applicable of certain GASB Statements. GASB Statement No. 97 increases consistency and comparability related to the reporting of fiduciary component units, mitigates costs associated with the reporting of certain defined contribution plans and enhances the relevance, consistency and comparability of the accounting and reporting for internal Revenue Code Section 457 deferred compensation plans. Other than the matter discussed in Note 2, the implementation of GASB Statements No. 84, 92 and 97 did not have a material impact on the County's financial position or results from operations.

Future Impacts of Accounting Pronouncements—The County has not completed the process of evaluating the impact that will result from adopting GASB Statements No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period; and No. 93, Replacement of Interbank Offered Rates, effective for the year ending December 31, 2021, No. 87, Leases; and No. 91, Conduit Debt Obligations effective for the year ending December 31, 2022, No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements; and No. 96, Subscription-Based Information Technology Arrangements, effective for the year ending December 31, 2023. The County is, therefore, unable to disclose the impact that adopting GASB Statements No. 87, 89, 91, 93, 94, and 96 will have on its financial position and results of operations when such statements are adopted.

### Stewardship, Compliance and Accountability

**Legal Compliance—Budgets**—Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, Debt Service Fund, Special Grants Fund, County Road Fund and the Road Machinery Fund. The Capital Projects Fund is appropriated on a project-length basis. Instead, appropriations are approved through a County Legislature resolution at the grant/project's inception and lapse upon completion/termination of the grant/project.

The County's annual procedures in establishing the budgetary data reflected in the basic financial statements are as follows:

- Prior to October 5<sup>th</sup>, the County Executive, submits to the County Legislature a tentative budget for the following fiscal year to commence on January 1<sup>st</sup>.
- The tentative budget includes expenditures and the sources of financing. Public hearings are conducted to obtain taxpayers' comments.
- The Legislature acts on the tentative budget no later than the date of the second Board of Legislators' meeting in November.
- The County Executive is authorized to approve budget transfers within departments and/or individual funds. However, revisions in excess of \$5,000 must be approved by the Legislature.
- Formal annual budgetary accounts are adopted and employed for control of all governmental
  funds except the Capital Projects Fund. Appropriations for all budgets lapse at fiscal yearend. Budgetary control over individual capital projects is provided by Legislative approval or
  bond authorizations and provision of bond indebtedness.

Additional information regarding the County's budgets can be found in the Notes to the Required Supplementary Information section of this report.

**Deficit Fund Balance**—At December 31, 2020, the Special Grant Fund had a deficit fund balance at of \$301,872, while the County Road Fund had a deficit fund balance of \$70,880. These deficits are expected to be remedied by future grant revenue and/or transfers from other governmental funds.

#### 2. RESTATEMENT OF NET POSITION

During the year ended December 31, 2020, the County implemented GASB Statement No. 84, *Fiduciary Activities*. The implementation of GASB Statement No. 84 establishes criteria for identifying fiduciary activities of state and local governments. This Statement also provides for the recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources.

The effect of this restatements to the County's fiduciary fund is summarized as follows:

	 Custodial Fund
Net position—December 31, 2019, as previously stated	\$ -
GASB Statement No. 84 implementation	 913,687
Net position—December 31, 2019, as restated	\$ 913,687

Additionally, during the year ended December 31, 2020, the County's component unit, the College, restated beginning net position for an adjustment to amounts due to related organizations. Net position of the College at August 31, 2019 has been restated as follows:

	Component Unit
	Mohawk
	Valley
	Community
	College
Net position—August 31, 2019, as previously stated Due to related organizations adjustment	\$ 51,624,289 (220,000)
Net position—August 31, 2019, as restated	\$ 51,404,289

# 3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The County's investment policies are governed by New York State statutes. In addition, the County has its own written investment policy. County monies must be deposited in FDIC-insured commercial banks or trust companies located within the state. Collateral is required for demand deposits, time deposits and certificates of deposit not covered by federal deposit insurance. Obligations that may be pledged as collateral are outlined in Chapter 623 of the laws of the State of New York.

Cash and cash equivalents at December 31, 2020, are as follows:

	G	overnmental	В	usiness-type	Fiduciary	Total
		Activities		Activities	 Fund	 Balance
Petty cash (uncollateralized)	\$	7,712	\$	200	\$ -	\$ 7,912
Deposits		16,819,080		38,401,549	 4,917,254	60,137,883
Total	\$	16,826,792	\$	38,401,749	\$ 4,917,254	\$ 60,145,795

*Deposits*—All deposits are carried at fair value, and are classified by credit risk category as presented below:

	 December 31, 2020				
	Bank		Carrying		
	 Balance Amount				
Insured (FDIC)	\$ 2,333,698	\$	1,854,152		
Uninsured:					
Collateral held by bank's					
agent in County's name	 71,414,178		58,283,731		
Total deposits	\$ 73,747,876	\$	60,137,883		

Custodial Credit Risk—Deposits—Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. As noted above, by State statute all deposits in excess of FDIC insurance coverage must be collateralized. As of December 31, 2020, all of the County's deposits were insured or collateralized.

**Restricted Cash**—Total governmental activities restricted cash of \$5,539,239 represents \$4,615,466 restricted for County capital projects and \$778,932 to support restricted fund balance and unearned revenue. Total business-type activities restricted cash of \$26,193,777 represents restricted surcharges on sewer billings to be used for future projects of \$6,975,693, cash restricted for sewer capital projects held with a fiscal agent of \$7,006,802, and cash restricted for workers' compensation of \$12,211,282. In addition, the Custodial Fund reports restricted cash and cash equivalents of \$4,917,254 which represents cash held on behalf of others.

**Deposits with Trustees**—Under terms of OTASC's bond indenture agreements, \$4,671,380 is held at December 31, 2020 by a trust company to provide for various functions of bond repayments.

#### **Oneida-Herkimer Solid Waste Authority**

Cash and cash equivalents consist of cash deposits in banks, and other short-term investments, whether unrestricted or restricted, with an original maturity of three months or less. Cash deposits with financial institutions are either covered by federal depository insurance or collateralized by securities held by the pledging bank's trust department in the Authority's name, or U.S. Government and/or federal agency securities held by the Trustee. The Authority reported \$13,543,869 unrestricted cash and \$3,378,267 restricted cash at December 31, 2020. The Authority reported investments of \$30,882,790 at December 31, 2020. Short-term investments consist of money market funds with underlying investments in obligations of the U.S. government and repurchase agreements. Investments include certificates of deposit, Federal Agency Securities, and U.S. Treasury Bond State and Local Government Series.

The Authority categorizes its fair value measurements into the fair value hierarchy established by GASB Statement No. 72.

The authoritative guidance on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs used to measure fair value are presented below:

- Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the entity has the ability to access.
- Level 2: Inputs to the valuation methodology include the following:
  - Quoted prices for similar assets or liabilities in active markets.
  - Quoted prices for identical or similar assets or liabilities in inactive markets.
  - Inputs other than quoted prices that are observable for the asset or liability.
  - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

• Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Authority had the following investments and maturities at December 31, 2020:

	December 31, 2020						
	Le	evel 1		Level 2		Level 3	 Total
Certificates of Deposit	\$	-	\$	28,446,547	\$	-	\$ 28,446,547
Federal Agency Securities		-		408,983		-	408,983
U.S. Treasury Bond State and							
Local Government Series				2,027,260			 2,027,260
Total investments	\$		\$	30,882,790	\$	-	\$ 30,882,790

#### **Mohawk Valley Community College**

At August 31, 2020, the College and its component units reported unrestricted cash and cash equivalents of \$17,739,773. The College's bank balances of \$15,632,964 were fully collateralized by securities held by an agent of the pledging financial institution in the College's name or FDIC insurance and were not exposed to custodial credit risk. The College's component units had deposits with trustees of \$512,326. These deposits represent bond proceeds not yet expended for new construction, and required reserves for debt service. The College's component units held \$7,247,856 of long-term investments at August 31, 2020. MVCC's long-term investments are measured at fair value, details are presented below:

	Fair Value at August 31, 2020					
	Total	Level 1	Level 2	Level 3		
Cash and cash equivalents	\$ 137,417	\$ 137,417	\$ -	\$ -		
U.S. government securities	185,220	-	185,220	-		
Corporated debt securities	957,152	-	957,152	-		
Unit investment trusts (a)	416	-	-	-		
Exchange traded funds	5,938,776	5,938,776	-	-		
Real estate investment trusts	28,875	28,875				
Total investments	\$ 7,247,856	\$ 6,105,068	\$ 1,142,372	\$ -		

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of the net assets available for benefits.

#### 4. RECEIVABLES

**Property Taxes Receivable**—The County has recorded property taxes receivable of \$22,150,691, offset by an allowance of \$170,657 for uncollectible amounts, at December 31, 2020.

*Other Receivables*—Represent amounts due from various sources. The County's other receivables at December 31, 2020 are shown below:

#### Governmental funds:

Various fees and charges:

General Fund	\$ 6,238,191
Debt Service Fund	273,703
Nonmajor funds	 487,289
Total governmental funds	\$ 6,999,183

Enterprise funds:

Sewer Fund \$ 7,200,294

Intergovernmental Receivables—Intergovernmental receivables in the governmental funds primarily represent claims for reimbursement of expenditures in administering various mental health and social service programs. Amounts are net of related advances from New York State. The County also reports an intergovernmental receivable of \$30,625,000 from the Oneida Indian Nation, which represents the settlement of land claims amounts due on real property taxes. Under this settlement, the County will receive \$2.5 million per year through 2033. Amounts accrued at December 31, 2020 are shown below:

#### Governmental funds:

General Fund

Nation settlement long-term receivable	\$ 30,625,000
Due from State and Federal—social services	43,577,280
Due from State and Federal—other	41,337,841
Due from other governments	 13,675,463
Total	\$ 129,215,584

#### **Oneida-Herkimer Solid Waste Management Authority**

Other Receivables—Receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a periodic basis. The OHSWMA reported receivables, net of allowance for doubtful accounts of \$262,585, was \$3,111,829 at December 31, 2020.

# **Mohawk Valley Community College**

*Other Receivables*—The following is a summary of the other receivables and their respective allowances reported by the College at August 31, 2020:

	Gross					Net		
	Receivable			llowance	Receivable			
Primary Institution:								
Tuition and fees receivable	\$	2,354,110	\$	(205,000)	\$	2,149,110		
Due from related organization		489,678		-		489,678		
Other receivables		1,588,436		-		1,588,436		
Component Units:

Other liabilities	\$ 11,785,206 26,112,868	\$	934,346	\$	12,719, 26,112,

#### 7. PENSION PLANS

#### Plan Description and Benefits Provided

Employees' Retirement System—The County, the Authority and the College participate in the New York State and Local Employees' Retirement System ("ERS"), a cost-sharing multiple-employer retirement system (the "System"). The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the "Fund"), which was established to hold all assets and record changes in fiduciary net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law ("NYSRSSL"). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The System is included in the State's financial report as a pension trust fund. That report, including information with regards to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The System is noncontributory, except for employees who joined the ERS after July 27, 1976 who contribute three percent (3%) of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010, who generally contribute three percent (3%) to three and one half percent (3.5%) of their salary for their entire length of service. In addition, employee contribution rates under ERS Tier VI vary based on a sliding salary scale. The Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions—At December 31, 2020, the County reported the liabilities shown on the following page for their proportionate share of the net pension liability for ERS. The net pension liability was measured as of March 31, 2020. The total pension liability used to calculate the net pension liability was determined by actuarial valuations as of April 1, 2019, with update procedures used to roll forward the total net pension liability to the measurement date. The County's proportion of the net pension liability was based on projections of the County's long-term share of contributions to the System relative to the projected contributions of all participating members, actuarially determined. This information was provided by the System in reports provided to the County.

	G	overnmental	Bus	siness-type
		Activities		Activities
	ERS			
Measurement date	Ma	rch 31, 2020	Mar	ch 31, 2020
Net pension liability	\$	77,212,471	\$	2,432,994
County's portion of the Plan's total				
net pension liability	(	0.2915834%	0.	0091878%

For the year ended December 31, 2020, the County recognized pension expenses of \$13,862,099 and \$496,359 for ERS for governmental activities and business-type activities, respectively. At December 31, 2020, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources				
		overnmental Activities		isiness-type Activities		overnmental Activities		iness-type ctivities
	ERS			S				
Differences between expected and								
actual experiences	\$	4,544,242	\$	143,192	\$	-	\$	-
Changes of assumptions		1,554,685		48,989		1,342,445		42,301
Net difference between projected and								
actual earnings on pension plan investments		39,582,660		1,247,271		-		-
Changes in proportion and differences								
between the County's contributions and								
proportionate share of contributions		643,008		20,262		1,120,538		35,309
County contributions subsequent								
to the measurement date		9,483,558		317,163				
Total	\$	55,808,153	\$	1,776,877	\$	2,462,983	\$	77,610

The County's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized in pension expense as follows:

	Governmental Activities	Business-type Activities		
Year Ending December 31,	EF	RS		
2021	\$ 7,184,235	\$	226,379	
2022	11,009,192		346,906	
2023	14,174,901		446,659	
2023	11,493,284		362,160	

**Actuarial Assumptions**—The total pension liabilities as of the measurement date were determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liabilities to the measurement date. The actuarial valuation used the following actuarial assumptions:

	ERS
Measurement date	March 31, 2020
Actuarial valuation date	April 1, 2019
Interest rate	6.80%
Salary scale	4.20%
Decrement tables	April 1, 2010-
	March 31, 2015
Inflation rate	2.50%
Cost-of-living adjustment	1.30%

Annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on Society of Actuaries' Scale MP-2014. The actuarial assumptions used in the April 1, 2019 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015.

The long-term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

_	ERS				
_	Target Allocation	Long-Term Expected Real Rate of Return			
Measurement date	March 31, 2020				
Asset class:					
Domestic equities	36.0 %	4.1 %			
International equities	14.0	6.2			
Private equity	10.0	6.8			
Real estate	10.0	4.9			
Absolute return strategies	2.0	3.3			
Opportunistic portfolio	3.0	4.7			
Real assets	3.0	9.0			
Bonds and mortgages	17.0	0.8			
Cash	1.0	0.0			
Inflation-indexed bonds	4.0	0.5			
Total	100.0 %				

**Discount Rate**—The discount rate used to calculate the total pension liabilities was 6.8%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption— The chart below presents the County's proportionate share of the net pension liabilities calculated using the discount rate of 6.8%, as well as what the County's proportionate share of the net pension liabilities would be if they were calculated using a discount rate that is one percentage-point lower (5.8%) or one percentage-point higher (7.8%) than the current assumption.

	1%	Current	1%
	Decrease	Decrease Assumption	
	(5.8%)	(6.8%)	(7.8%)
Governmental activities:			
Employer's proportionate share			
of the net pension liability—ERS	\$ 141,705,949	\$ 77,212,471	\$ 17,812,936
Business-type activities:			
Employer's proportionate share of the net pension liability—ERS	\$ 4,465,231	\$ 2,432,994	\$ 561,295

**Pension Plan Fiduciary Net Position**—The components of the current-year net pension liabilities of the employers as of the valuation dates were as follows:

	ERS
	(Dollars in Thousands)
Valuation date	April 1, 2019
Employers' total pension liability	\$ 194,596,261
Plan fiduciary net position	168,115,682
Employers' net pension liability	\$ 26,480,579
System fiduciary net position as a	
percentage of total pension liability	86.4%

### **Oneida-Herkimer Solid Waste Management Authority**

The Authority also participates in the ERS.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Inflows of Resources Related to Pensions**—At December 31, 2020, the Authority reported a net pension liability of \$3,797,385 for its proportionate share of the net pension liability. At the March 31, 2020 measurement date, the Authority's proportion was 0.0143403%.

For the year ended December 31, 2020, the Authority recognized pension expense of \$1,274,355. At December 31, 2020, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources shown below:

	Deferred Outflows of Resources		red Inflows Resources
-	- 01	ERS	 <u>cesources</u>
Differences between expected and			
actual experiences	\$	223,491	\$ -
Change of assumptions		76,461	66,023
Net difference between projected and			
actual earnings on pension plan investments		1,946,724	-
Changes in proportion and differences			
between the Authority's contributions and			
proportionate share of contributions		18,032	18,528
Authority contributions subsequent			
to the measurement date		448,906	 
Total	\$	2,713,614	\$ 84,551

The Authority's contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	 ERS
2021	\$ 362,748
2022	547,636
2023	704,740
2024	565,033

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption— The chart on the following page represents the Authority's proportionate share of the net pension liability calculated using the discount rate of 6.8%, as well as what the Authority's proportionate share of the net pension liability would be if they were calculated using a discount rate that is one percentage-point lower (5.8%) or one percentage point higher (7.8%) than the current assumption.

	1%		Current	1%
	Decrease	A	ssumption	Increase
	 (5.8%)		(6.8%)	(7.8%)
Employer's proportionate share				
of the net pension liability—ERS	\$ 6,969,273	\$	3,797,385	\$ 876,062

The actuarial assumptions, asset allocations and pension plan fiduciary net position are the same as those disclosed for the System within the County's portion of the footnote.

#### **Mohawk Valley Community College**

MVCC participates in the ERS and the Teachers' Retirement System ("TRS").

# Plan Description and Benefits Provided

*Employees' Retirement System*—The plan description is the same as disclosed within the County's footnote.

Teachers' Retirement System—MVCC participates in the New York State Teachers' Retirement System ("TRS"). This is a cost-sharing multiple-employer retirement system. TRS provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and Retirement and the New York State Retirement and Social Security Law ("NYSRSSL"). TRS is governed by a 10 member Board of Trustees. TRS benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York State Public Schools and BOCES who elect to participate in TRS. Once a public employer elects to participate in TRS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding TRS may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYSSTR Comprehensive Annual Financial Report which can be found on TRS' website at www.nystrs.org.

Plan members who joined the TRS before July 27, 1976, are not required to make contributions. Those joining after July 27, 1976 are required to contribute 3.0% to 3.5% of their annual salary. Employees in the System more than ten years are no longer required to contribute. Pursuant to Article 11 of the Education Law, rates are established annually by the New York State Teachers' Retirement Board.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Inflows of Resources Related to Pensions—At August 31, 2020, MVCC reported on the following page the liability/(asset) for its proportionate share of the net pension liabilities for each of the Systems. The net pension liabilities were measured as of March 31, 2020 for ERS and June 30, 2020 for TRS. The total pension liabilities used to calculate the net pension liabilities were determined by actuarial valuations as of April 1, 2019 for ERS and June 30, 2019 for TRS. MVCC's proportion of the net pension liabilities were based on a projection of MVCC's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by ERS and TRS in reports provided to MVCC.

		TRS		ERS
Measurement date	Jun	e 30, 2020	Ma	arch 31, 2020
Net pension liability	\$	693,795	\$	11,429,909
MVCC's portion of the Plan's total				
net pension liability	0.	.02510%		0.04316%

For the year ended August 31, 2020, MVCC recognized a pension expense of \$1,077,198 for the TRS and pension expense of \$3,559,671 for ERS. At August 31, 2020, MVCC reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources shown below.

	Deferred Outflows					Deferred Inflows			
		of Res	ourc	es		of Resources			
		TRS		ERS		TRS		ERS	
Differences between expected and									
actual experiences	\$	607,903	\$	672,696	\$	35,556	\$	-	
Change of assumptions		877,488		230,145		312,778		198,726	
Net difference between projected and									
actual earnings on pension plan investments		453,109		5,859,527		-		-	
Changes in proportion and differences									
between MVCC's contributions and									
proportionate share of contributions		209,409		95,186		191,765		165,876	
MVCC's contributions subsequent									
to the measurement date		62,929		581,790		-		_	
Total	\$	2,210,838	\$	7,439,344	\$	540,099	\$	364,602	

The College's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending August 31, 2021. Other amounts reported as deferred inflows of resources and deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending August 31,	 TRS	 ERS
2021	\$ 282,752	\$ 1,063,501
2022	558,067	1,629,720
2023	449,131	2,098,348
2024	265,098	1,701,383
2025	576	-
Thereafter	52,186	-

Actuarial Assumptions—The total pension liabilities as of the measurement dates were determined by using actuarial valuations as noted in the table below, with update procedures used to roll forward the total pension liabilities to the measurement dates. The actuarial valuations used the following actuarial assumptions:

	TRS	ERS
Measurement date	June 30, 2020	March 31, 2020
Actuarial valuation date	June 30, 2019	April 1, 2019
Interest rate	7.10%	6.80%
Salary scale	1.90%-4.72%	4.20%
Decrement tables	July 1, 2009-	April 1, 2010-
	June 30, 2014	March 31, 2015
Inflation rate	2.20%	2.50%
Cost-of-living adjustment	1.30%	1.30%

For TRS, annuitant mortality rates are based on July 1, 2009 – June 30, 2014 System experience with adjustments for mortality improvements based on Society of Actuaries Scale MP2019, applied on a generational basis. The actuarial assumptions used in the June 30, 2019 valuation are based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standards of Practice ("ASOP") No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) for each major asset class as well as historical investment data and plan performance. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized on the following page.

		Long-Term Expected			
	Target Alloc	ation	Real Rate	e of Return	
	TRS	ERS	TRS	ERS

Long-Term Expected

Discount Rate—The discount rate used to calculate the total pension liabilities was 6.8% for ERS and 7.1% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liabilities.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption— The chart below presents MVCC's proportionate share of the net pension liabilities calculated using the discount rate of 6.8% for ERS and 7.1% for TRS, as well as what MVCC's proportionate share of the net pension liabilities would be if they were calculated using a discount rate that is one percentage-point lower (5.8% for ERS and 6.1% for TRS) or one percentage-point higher (7.8% for ERS and 8.1% for TRS) than the current assumption.

	1%	Current	1%	
	Decrease	Assumption	Increa	ıse
ERS	(5.8%)	(6.8%)	(7.8%	(o)
Employer's proportionate share				
of the net pension liability	\$ 20,977,111	\$ 11,429,809	\$ 2,63	6,896

	1%		Current	1%
	Decrease	As	ssumption	Increase
TRS	 (6.10%)	(	(7.10%)	 (8.10%)
Employer's proportionate share				
of the net pension liability/(asset)	\$ 4,382,462	\$	693,795	\$ (2,401,932)

**Pension Plan Fiduciary Net Position**—The components of the current-year net pension liabilities of the employers as of the valuation dates were as follows:

	(Dollars in Thousands)				
	TRS				
Valuation date	June 30, 2019	April 1, 2019			
Employers' total pension liability	\$ 123,242,776	\$ 194,596,261			
Plan fiduciary net position	120,479,505	168,115,682			
Employers' net pension liability	\$ 2,763,271	\$ 26,480,579			
System fiduciary net position as a percentage of total pension liability	97.8%	86.4%			

**Payables to the Pension Plan**—At August 31, 2020, MVCC recorded a payable due to TRS in the amount of \$62,929, and a payable due to ERS in the amount of \$581,790.

# 8. OTHER POST-EMPLOYMENT BENEFITS ("OPEB") OBLIGATIONS

**Plan Description**—Oneida County provides medical and prescription drug insurance benefits for retirees, spouses, and their covered dependents while contributing a portion of the expenses. Such postemployment benefits are an included value in the exchange of salaries and benefits for employee services rendered. An employee's total compensation package includes not only the salaries and benefits received during active service, but all compensation and benefits received for their services during postemployment. Nevertheless, both types of benefits constitute compensation for employee services. The County provides five separate medical plans and four separate prescription drug plans, with medical and prescription drug plans paired together and available to various members.

*Employees Covered by Benefit Terms*—For the year ended December 31, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	372
Active employees	1,293
Total	1,665

Under GASB Statement No. 75, the total OPEB liability represents the sum of expected future benefit payments which may be attributed to past service (or "earned"), discounted to the end of the fiscal year using the current discount rate. The total OPEB liability is analogous to the Unfunded Actuarial Accrued Liability ("UAAL") under GASB Statement No. 45.

#### Total OPEB Liability

The County's primary government total OPEB liability of \$97,865,008 was measured as of January 1, 2020, and was determined by an actuarial valuation as of January 1, 2019.

Actuarial Methods and Assumptions—Calculations are based on the types of benefits provided under the terms of the substantive plan, the plan as understood by the employer and plan members, at the time of the valuation and on the pattern of cost sharing between the employer and plan members. The projection of benefits does not incorporate the potential effect of a change in the pattern of cost sharing between the employer and plan members in the future. Calculations reflect a long-term perspective, so methods and assumptions used include techniques that are designated to reduce short-term volatility.

In the January 1, 2019 actuarial valuation, the Entry Age Normal over a level percent of pay was used. The discount rate was updated to 2.74% at December 31, 2020 from 4.10% at December 31, 2019. The RPH-2014 Mortality Table adjusted back to 2006 using scale MP-2014 and projected forward using scale MP-2018 was used. The rates of decrement due to turnover and retirement are based on the experience under the New York State & Local Retirement System as prepared by the Department of Civil Service's actuarial consultant report entitled "Development of Recommended Actuarial Assumptions for New York State/SUNY GASB 45 Valuation (June 2019)". The actuarial assumptions included annual healthcare cost trend rate for Pre-65 of 6.5% initially, decreased by increments to an ultimate rate of 3.94%.

*Changes in the Total OPEB Liability*—The following table presents the changes to the total OPEB liability during the fiscal year, by source:

	Total OPEB Liability				
	G	overnmental	Вι	isiness-type	
		Activities		Activities	
Balances at December 31, 2019:	\$	78,482,019	\$	2,020,616	
Changes for the year:					
Service cost		3,237,353		99,660	
Interest		3,297,231		101,503	
Changes of assumptions		11,756,691		757,332	
Benefit payments		(1,831,030)		(56,367)	
Net changes		16,460,245		902,128	
Balances at December 31, 2020:	\$	94,942,264	\$	2,922,744	

Sensitivity of the Total OPEB Liability to the Change in the Discount Rate and Healthcare Cost Trend Rate—The discount rate assumption can have an impact on the total OPEB liability. The following table presents the effect a 1% change in the discount rate assumption would have on the total OPEB liability:

	1%	Current		1%
	Decrease (1.74%)	Discount Rate (2.74%)		Increase (3.74%)
Governmental activities: Total OPEB liability	\$ 112,086,691	\$	94,942,264	\$ 81,285,807
Business-type activities: Total OPEB liability	\$ 3,450,525	\$	2,922,744	\$ 2,502,337

Additionally, healthcare costs can be subject to considerable volatility over time. The following table presents the effect on the total OPEB liability of a 1% change in current health cost trend rates as reported by the County's actuary:

				Healthcare		
		1%		Cost Trend		1%
	Decrease		Rates			Increase
	(:	5.5%/2.94%)	(6.5%/3.94%)		(	7.5%/4.94%)
Governmental activities:						
Total OPEB liability	\$	78,749,534	\$	94,942,264	\$	116,095,485
Business-type activities:						
Total OPEB liability	\$	2,424,260	\$	2,922,744	\$	3,573,934

Funding Policy—Members who retired prior to January 1, 1994 contribute 50% of the premium for individual coverage and 65% of the excess of the two-person/family premium over the individual premium to cover dependents. Members who retired after January 1, 1994 contribute 50% of the premium for individual coverage and 100% of the excess of the two-person/family premium over the individual premium to cover dependents. There are 33 current retirees who contribute 20% as part of a retirement incentive offered between December 2005 and February 2006. Surviving spouses may continue coverage at 100% of the individual premium cost. The County does not issue a publicly available report. The County recognizes the cost of providing these benefits by expensing the annual insurance premiums when invoiced by the health insurance provider. For the year ended December 31, 2020, the County's governmental activities and business-type activities recognized OPEB expense of \$5,910,340 and \$181,946, respecitly. The County's contributions to the plan are based on negotiated contracts with bargaining units, as discussed in 14. Any amendments to the employer's contributions are subject to the bargaining units.

**OPEB** Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB—The County reports deferred outflows of resources due to changes of assumptions and contributions subsequent to the measurement date and deferred inflows of resources due to differences during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective total OPEB liability. The table on the following page presents the County's deferred outflows and deferred inflows of resources at December 31, 2020.

	Deferred Outflows of Resources					Deferred Inflows of Resources				
	G	overnmental	Business-type			overnmental	Business-type			
		Activities	Activities		Activities		Activities			
Changes of assumptions	\$	14,587,078	\$	449,055	\$	-	\$	-		
Differences between expected and actual experience		-		-		16,359,857		503,629		
Contributions subsequent to the measurement date		2,106,927		64,861						
Total	\$	16,694,005	\$	513,916	\$	16,359,857	\$	503,629		

The County's contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending December 31, 2021. Other amounts reported as deferred outflows and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Go	vernmental	Bus	siness-type
Year Ending December 31,	Activities		Α	ctivities
2021	\$	(624,244)	\$	(19,217)
2022		(624,244)		(19,217)
2023		(624,244)		(19,217)
2024		(624,244)		(19,217)
2025		(838,582)		(25,814)
Thereafter		1,562,779		48,108

### **Oneida-Herkimer Solid Waste Management Authority**

**Plan Description**—The Authority provides health care benefits for eligible retire employees comprised of a 50% monthly premium contribution toward their health insurance costs. Eligible retirees may also have a spouse and dependents covered at the retired employees' expense. Healthcare benefits are provided through insurance companies whose premiums are based on the benefits provided.

**Employees Covered by Benefit Terms**—The benefit plan is administered and accounted for as a single-employer defined benefit plan. A summary of active employees and retired employees covered under this benefit plan as of December 31, 2020 is as follows:

Active employees	20
Retirees	4
Total	24

Under GASB Statement No. 75, the total OPEB liability represents the sum of expected future benefit payments which may be attributed to past service (or "earned"), discounted to the end of the fiscal year using the current discount rate. The total OPEB liability is analogous to the Unfunded Actuarial Accrued Liability ("UAAL") under GASB Statement No. 45.

**Total OPEB Liability**—The Authority's total OPEB liability of \$2,378,044 was measured as of January 1, 2020, and was determined by an actuarial valuation as of that date.

Actuarial Methods and Assumptions—The total OPEB liability in the January 1, 2020 actuarial valuation was determined using the following actuarial assumptions:

Assumptions	Factor
Valuation date	January 1, 2020
Measurement date	January 1, 2020
Reporting date	December 31, 2020
Actuarial cost method	Entry age normal - level percent of pay
Discount rate:	
2020	2.74%
2019	4.10%
Health care cost trend rates	Society of Actuaries Long-Run Medical Cost Trend Model
Salary scale	3.50%
Inflation	2.20%
	RPH-2014 Mortality Table for Health Annuitants, sex distinct, with
Mortality	generationals mortality adjusted to 2006 using scale MP-2014, and
	projected forward with scale MP-2019.

*Changes in the Total OPEB Liability*—The following table presents the changes to the total OPEB liability during the fiscal year, by source:

	Total OPEB		
	Liability		
Balance at December 31, 2019:	\$	2,387,667	
Changes for the year:			
Service cost		57,809	
Interest		98,953	
Differences between expected and actual experience		(498,831)	
Changes in assumptions and other inputs		396,388	
Benefit payments		(63,942)	
Net changes		(9,623)	
Balance at December 31, 2020	\$	2,378,044	

Sensitivity of the Total OPEB Liability to the Change in the Discount Rate and Healthcare Cost Trend Rate—The table below presents the OPEB liability of the plan as of December 31, 2020, calculated using the discount rate of 2.74%, as well as what the OPEB liability would be if it were calculated using a discount rate that are 1% lower or 1% higher than the current rate.

	1%	1% Current		1%
	Decrease	Di	scount Rate	Increase
	(1.74%)		(2.74%)	 (3.74%)
Total OPEB liability	\$ 2,741,833	\$	2,378,044	\$ 2,081,882

The following presents the OPEB liability of the plan as of December 31, 2020 using current health care cost trend rates as well as what the OPEB liability would be if it were calculated using health care cost trend rates that is 1% lower and 1% higher than the current rate.

		1%		Current	1%			
	Decrease		Di	scount Rate	Increase			
Total OPEB liability	\$	2,056,633	\$	2,378,044	\$	2,780,597		

Funding Policy—The contribution requirements of benefit plan members and the Authority are established pursuant to applicable collective bargaining and employment agreements. The required rates of the employer and the members may vary depending on the applicable agreement. The Authority is not required to fund the benefit plan other than the pay-as-you-go amount necessary to provide current benefits to retirees. For the year ended December 31, 2020 the Authority paid \$63,942 on behalf of the plan members. The benefit plan does not issue a stand-alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the benefit plan.

**OPEB** Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**—The Authority reports deferred outflows of resources and deferred inflows of resources due to differences during the measurement period between the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective total OPEB liability. The table below presents the Authority's deferred outflows of resources and deferred inflows of resources at December 31, 2020.

		Deferred Outflows		Deferred Inflows
	of l	Resources	of	Resources
Changes of assumptions or other inputs	\$	483,305	\$	170,534
Differences between expected and actual experience		-		550,832
Contributions subsequent to the measurement date		39,601		
Total	\$	522,906	\$	721,366

The Authority's contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending December 31, 2021. The amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as presented below.

#### **Mohawk Valley Community College**

Plan Description—The College sponsors and administers an employer defined benefit plan (Blue Cross/Blue Shield Traditional) for Professional Association, Administrators' Association and Exempt Employees (the "Plan") which provides postemployment health insurance coverage to its retired employees meeting certain qualifications (i.e. Age 55 with 5 years of full-time continuous service). Employees belonging to United Public Service Employees Union are covered under a choice of three plans (RMSCO PPO, RMSCO Traditional, and RMSCO MVP) administered by the County. Substantially all employees may become eligible for these benefits if they reach normal retirement age while working for the College. Benefit provisions are established and may be amended by the College's Board of Trustees. The plan does not issue a standalone publicly available report since no assets are accumulated in a trust that meets the criteria of GASB No. 75, paragraph 4.

*Employees Covered by Benefit Terms*—At September 1, 2019 the following employees were covered by the benefit terms:

Inactive employees or beneficiairies currently receiving benefit payments	150
Active employees	394
Total	544

Under GASB Statement No. 75, the total OPEB liability represents the sum of expected future benefit payments which may be attributed to past service (or "earned"), discounted to the end of the fiscal year using the current discount rate. The total OPEB liability is analogous to the Unfunded Actuarial Accrued Liability ("UAAL") under GASB Statement No. 45.

**Total OPEB Liability**—The College's total OPEB liability of \$29,473,574 was measured as of September 1, 2019 and was determined by an actuarial valuation as of September 1, 2018.

Actuarial Methods and Assumptions—In the September 1, 2018 actuarial valuation, the entry age normal method, over a level percent of pay was used. The single discount rate is 2.97% effective September 1, 2019 compared to 3.91% effective September 1, 2018. In order to estimate the change in the cost of healthcare, the actuaries initial healthcare cost trend rate used is 6.5%, while the ultimate healthcare cost trend rate is 3.94%.

*Changes in the Total OPEB Liability*—The following table presents the changes to the total OPEB liability during the fiscal year, by source:

	Total OPEB Liability
Balances at August 31, 2019:	\$ 24,180,833
Changes for the year:	
Service cost	1,110,134
Interest	986,909
Changes in benefit terms	789,203
Changes of assumptions	3,144,505
Benefit payments	(738,010)
Net changes	5,292,741
Balances at August 31, 2020	\$ 29,473,574

Sensitivity of the Total OPEB Liability to the Change in the Discount Rate and Healthcare Cost Trend Rate—The discount rate assumption can have an impact on the total OPEB liability. The following table presents the effect a 1% change in the discount rate assumption would have on the total OPEB liability:

	1%		Current	1%
	Decrease	D	iscount Rate	Increase
	(1.97%)		(2.97%)	(3.97%)
Total OPEB liability	\$ 34,423,794	\$	29,473,574	\$ 25,486,522

Additionally, healthcare costs can be subject to considerable volatility over time. The following table presents the effect on the total OPEB liability of a 1% change in current health cost trend rates as reported by the College's actuary:

		Healthcare	
	1%	Cost Trend	1%
	Decrease	Rates	Increase
	(5.5%/2.94%)	(6.5%/3.94%)	(7.5%/4.94%)
Total OPEB liability	\$ 24,634,205	\$ 29,473,574	\$ 35,769,742

*Eligibility and Funding Policy*—The College pays the following percentages of health insurance premiums for the various employee groups:

- Professional Association
  - Retired before January 1, 1994 50% individual and 35% for spouse/family
  - Retired on or after January 1, 1994 50% individual only
  - Effective September 1, 2009, up to five retirees per year receive \$300 per day of accrued sick leave, up to \$36,000, credited to pay the retiree's share of health insurance premiums. Once these funds have been exhausted payment reverts to 50% of the individual only.
- Administrators Association and Exempt Employees
  - Retired before June 28, 2007, members receive at a rate of one month of paid health insurance for every two days of accrued sick leave. (Members joining after June 28, 2007, do not receive this benefit; instead, up to one retiree per year receives \$300 per day of accrued sick leave, up to \$36,000, credited to pay the retiree's share of health insurance premiums. Once these funds have been exhausted payment revers to 50% of the individual only)
  - Retired before January 1, 1994 50% individual and 35% for spouse/family
  - Retired on or after January 1, 1994 50% individual
- United Public Service Employee Union
  - Retired before January 1, 1994 50% individual and 35% for spouse/family
  - Retired on or after January 1, 1994 50% individual

**OPEB** Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**—The College reports deferred outflows of resources and deferred inflows of resources due to differences during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective total OPEB liability. The table on the following page presents the College's deferred outflows and inflows of resources at August 31, 2020.

	Deferred			Deferred
	Outflows			Inflows
	of Resources			Resources
Changes of assumptions	\$	2,682,078	\$	4,063,440
Differences between expected and actual experience		-		2,017,428
Contributions subsequent to the measurement date		793,586		
Total	\$	3,475,664	\$	6,080,868

The College's contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending August 31, 2021. Other amounts reported as deferred outflows and deferred inflow of resources related to OPEB will be recognized in OPEB expense as follows:

_	Year Ending August 31,	_	
	2021	\$	(890,415)
	2022		(890,415)
	2023		(890,415)
	2024		(836,578)
	2025		(260,910)
	Thereafter		369.943

#### 9. RISK MANAGEMENT

**Insurance**—The County assumes liability for some risk including, but not limited to, workers' compensation and unemployment claims. Asserted and incurred but not reported claims and judgments are recorded when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonable estimate. Such recording is consistent with the requirements of GASB.

Governmental fund type estimated current contingent liabilities (i.e., those to be liquidated with available financial resources in the ensuing year) for property damage and personal injury liabilities are recorded in the General Fund. The long-term portion (i.e., liabilities to be paid from future resources) is recorded within long-term debt in the government-wide financial statements.

The County is exposed to various risks of loss related to damage and destruction of assets, vehicle liability, injuries to employees, health insurance, and unemployment insurance. One such risk is associated with its workers' compensation program. The County's program is self-insured and is accounted for in the Workers' Compensation Fund. The program provides for the participation of other municipalities within the County and is administered by the County's Workers' Compensation Board.

All funds of the County participate in the program and make payments to the Workers' Compensation Fund. Payments from other funds and component units are determined by two methods. The first method reimburses the risk management fund by assessment against County organizations based upon actual claims history for the preceding five years (a rolling average). The second method results in charges to County organizations based upon pro-rata taxable base value.

The estimated accrued claims of \$18,380,001, net of \$221,994 and \$7,211,227 owed from the Sewer Fund and governmental activities, respectively, are recognized in the Workers' Compensation Fund at December 31, 2020 based on the evaluation that it is probable that a liability has been incurred and the amount of the loss can be reasonable estimated. A receivable/payable has been recorded for amounts due from/to other municipalities that participate in the program. The changes since December 31, 2018 in the total workers' compensation accrued claims liabilities were as follows:

Year		Claims and				
Ended	Beginning of	Changes in	Claims	Balance at		
December 31,	Year Liability	Estimates	Payments	Year End		
2020	\$ 20,298,000	\$ 10,835,668	\$ 12,753,667	\$ 18,380,001		
2019	19,900,000	15,215,858	14,817,858	20,298,000		

The County's portion of their liability is recorded within the governmental activities and Sewer Fund. Governmental activities and the Sewer Fund have recorded liabilities for workers' compensation claims in the amount of \$7,211,227 and \$221,994, at December 31, 2020, respectively. The County utilizes a third-party administrator who is responsible for, processing claims. Liabilities for the program have been estimated by an independent actuary.

In addition to its workers' compensation program, the County is self-insured for the major medical portion of its health insurance. Under this program, the County accounts in the General Fund for claims in the General Fund with maximum exposure of \$300,000 per person per year.

County employees are entitled to coverage under the New York State Unemployment Insurance Law. The County has elected to discharge its liability to the New York State Unemployment Insurance Fund by the benefit reimbursement method, a dollar-to-dollar reimbursement to the fund for benefits paid from the fund to former County employees and charged to the County's account.

The County purchases commercial insurance for all other risks of loss. Coverage includes policies for general liability, automobile, and police protection. These three lines have a combined stop loss aggregate in the amount of \$550,000. Other miscellaneous policies provide coverage with varying immaterial deductibles per individual claims.

**Pending Litigation**—The County is involved in litigation arising in the ordinary course of its operations. The County has recorded a liability of \$215,772 as of December 31, 2020 for such claims.

#### 10. LEASE OBLIGATIONS

During the year ended December 31, 2018, the County executed a lease agreement to lease certain emergency services equipment in the amount of \$4,400,000. The lease was issued at an interest rate of 3.11% with principal payments made annually beginning in 2019, with the final payment scheduled for 2025.

During the year ended December 31, 2019, the County executed an energy performance lease contract for improvements to the County's airport in the amount of \$15,512,000. The lease was issued at an interest rate of 4.14% with principal payments made annually beginning in 2020, with the final payment scheduled for 2034.

During the year ended December 31, 2020, the County executed a lease agreement to lease certain radio and tower equipment in the amount of \$1,349,000. The lease was issued at an interest rate of 2.28% with principal payments made annually beginning in 2021, with the final payment scheduled for 2023.

The table below summarizes requirements of the County's capital leases:

Year Ending	
December 31,	 Principal
2021	\$ 2,495,870
2022	2,495,870
2023	2,495,871
2024	2,036,029
2025	2,036,032
2026-2030	7,037,290
2031 and thereafter	 5,629,832
Total payments	24,226,794
Interest	(5,361,880)
Total	\$ 18,864,914

#### 11. LONG-TERM LIABILITIES

In the government-wide financial statements, long-term debt and other long-term obligations are reported as noncurrent liabilities in the statement of net position.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Further, unmatured principal of general long-term debt does not require current appropriation and expenditure of governmental fund financial resources.

The County's outstanding long-term liabilities include bonds payable, accreted interest, capital leases, workers' compensation, compensated absences liability, other post-employment benefits ("OPEB") obligations, retirement obligations, claims and judgments, and net pension liability.

A summary of changes in the County's long-term debt at December 31, 2020 is shown below:

	Balance 1/1/2020		Additions	I	Reductions	1	Balance 2/31/2020		Oue Within One Year
Governmental activities:									
Bonds payable	\$ 138,311,420	\$	17,462,499	\$	16,080,505	\$	139,693,414	\$	17,347,386

(\*Additions to the net pension liability are shown net of reductions.)

**Bonds Payable**—The County issues bonds to provide funds for the acquisition and construction of major capital facilities. This policy enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. Bonds have been issued for both governmental and business-type activities.

On May 22, 2020, the County issued \$18,522,499 of Series 2020 Public Improvement Bonds. Of this amount, \$17,462,499 was issued for County activities and \$1,060,000 was issued on behalf of MVCC. The serial bonds were issued at interest rates ranging from 2.00-2.25 percent. Principal payments begin in 2021 and the bonds mature in 2035.

On September 24, 2020, the County entered into an agreement with the Environmental Facilities Corporation ("EFC") to issue notes in the amount not to exceed \$78,277,215. The EFC notes were issued at interest rates ranging from 0.00-0.33% and mature in 2025. During the year, the County drew down \$4,051,347 which has been recorded as an increase to the long-term liability recorded within business-type activities.

On December 17, 2020, the County entered into an agreement with the EFC to issue bonds in the amount of \$55,000,000 and \$5,000,000. The bonds refunded previously issued 2019 EFC Notes. The \$55,000,000 bonds were issued at interest rates ranging from 0.230 - 2.671 and \$5,000,000 was hardship financing issued at an interest rate of 0.0. The refunding bonds mature in 2050.

**Defeased Debt**—On March 27, 2013 and October 25, 2017 the County defeased certain governmental and business-type activities serial bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At December 31, 2020, remaining principal of the defeased debt was \$8,710,000.

A summary of additions and payments for the year ended December 31, 2020 is shown below:

The County generally borrows funds on a long-term basis for the purpose of financing acquisitions of equipment and construction of buildings and improvements on behalf of the College. The debt service payments for the bonds are funded by capital chargebacks from other counties and by contributions from the County.

2024	1,200,000		3,256,000	4,456,000
2025	1,400,000		3,174,750	4,574,750
Thereafter	 53,995,000		42,664,750	 96,659,750
Total	\$ 56,995,000	\$	59,038,500	\$ 116,033,500

Issue NYCTT V—In 2005, OTASC participated in the New York Counties Tobacco Trust V ("NYCTT V"), along with 23 other New York County Tobacco Corporations, and issued Subordinate Capital Appreciation Bonds (Subordinate Turbo CABs) in various series for the purpose of securitizing additional future tobacco settlement revenues. They were sold discounted; the par value of these bonds totals \$721,365,000. The discount amount of these bonds (present value) at time of sale was \$14,684,111. The proposed repayment of the bonds would be on an accelerated basis, known as The Turbo Redemption. The yields and maturities, based on the Turbo Redemption Plan, are as shown below.

		Interest	Issuance
Issue	Maturity	Rate	Amount
2005S2	2040	6.10%	\$ 2,853,841
2005S3	2040	6.85%	2,774,686
2005S4B	2040	7.85%	 9,055,584
Total			\$ 14,684,111

*Capital Lease*—As discussed in Note 10, County has several capital lease agreements outstanding. The balance of these leases at December 31, 2020 amounted to \$18,864,914, of which \$1,814,495 is considered to be due within one year.

**Workers' Compensation**—As discussed in Note 9, the County reports the workers' compensation liability at December 31, 2020 is \$7,211,227 and \$11,168,774 for governmental activities and business-type activities, respectively.

Compensated Absences—As explained in Note 1, the County records the value of compensated absences in both the governmental activities and the business-type activities. The payment of compensated absences recorded as long-term debt in the government-wide financial statements is dependent upon many factors; therefore, timing of future payment is not readily determinable. However, management believes that sufficient resources will be made available for the future payment of compensated absences when such payments become due.

**OPEB**—As discussed in Note 8, the County's total OPEB obligation at December 31, 2020 is \$94,942,264 and \$2,922,744 for governmental activities and business-type activities, respectively.

**Retirement Obligations**—Chapter 57 of the Laws of 2010 of the State of New York allows local employers to amortize a portion of their retirement bill for 10 years in accordance with the following stipulations:

- For State fiscal year 2010-2011, the amount in excess of the graded rate of 9.5 percent of employees' covered pensionable salaries, with the first payment of those pension costs not due until the fiscal year succeeding that fiscal year in which the amortization was instituted.
- For subsequent State fiscal years, the graded rate will increase or decrease by up to one percent depending on the gap between the increase or decrease in the System's average rate and the previous graded rate.
- For subsequent State fiscal years in which the System's average rates are lower than the graded rates, the employer will be required to pay the graded rate. Any additional contributions made will first be used to pay off existing amortizations, and then any excess will be deposited into a reserve account and will be used to offset future increases in contribution rates.

This law requires participating employers to make payments on a current basis, while amortizing existing unpaid amounts relating to the System's fiscal years when the local employer opts to participate in the program. The total unpaid liability at the end of the year ended December 31, 2020 was \$3,416,794, of which \$3,311,930 and \$104,864 are reported in governmental activities and business-type activities, respectively.

Claims and Judgments—The County is exposed to various risks of losses related to torts, theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. As of December 31, 2020, the County has reported \$215,772 of claims and judgments which are classified as reasonably possible.

*Net Pension Liability*—The County reports a liability for its proportionate share of the net pension liability for the Employees' Retirement System. The net pension liability is estimated to be \$77,212,471 and \$2,432,994 for its governmental activities and business-type activities, respectively. Refer to Note 7 for additional information related to the County's net pension liability.

#### **Oneida-Herkimer Solid Waste Management Authority**

A summary of changes in long-term debt for the year ended December 31, 2020 is presented below.

	Balance			Balance
Description	1/1/2020	Increases	Decreases	12/31/2020
Revenue bonds 2011	\$ 5,820,000	\$ -	\$ 870,000	\$ 4,950,000
EFC Revenue Bonds 2015	14,247,593		1,605,000	12,642,593
Total revenue bonds	20,067,593	-	2,475,000	17,592,593

Accrued closure and				
post-closure costs	3,955,863	-	7,141	3,948,722
OPEB obligation	2,387,667	553,150	562,773	2,378,044
Net pension liability	1,028,066	2,769,319		3,797,385
Total	\$ 27,459,493	\$ 3,322,469	\$ 3,051,493	\$ 27,730,469

The Authority maintains one landfill which reached full capacity at December 31, 1996, and began operating another in 2006. Based upon engineering estimates and actual usage, the landfill has a useful life of over seventy years. In accordance with New York State Department of Environmental Conservation Regulations, the Authority has, and will implement landfill closure and post-closure requirements. At December 31, 2020, the Authority accrued \$3,948,044 for estimated closure and post-closure costs. Due to changes in technology or changes in regulations, actual costs may be different from the current accrual.

The OHSWMA annual repayment of principal and interest on bonded debt is presented below:

Year Ending	OHSWMA							
December 31,		Principal		Interest	Total			
2021	\$	2,555,000	\$	778,577	\$	3,333,577		
2022		2,635,000		658,144		3,293,144		
2023		2,720,000		530,788		3,250,788

Bonds, less current installments	\$	15,037,593						

#### **Mohawk Valley Community College**

The following is a summary of changes in long-term debt for the year ended August 31, 2020:

	Balance 9/1/2019		Increases		Decreases	Balance 8/31/2020
Primary Institution:						
Compensated absences	\$ 1,428,792	\$	153,948	\$	-	\$ 1,582,740
OPEB obligation	24,180,833		6,030,751		738,010	29,473,574
Net pension liability	3,005,431		9,118,173		-	12,123,604
Component Units:						
Serial Bonds—MVCCDC	5,740,000		-		255,000	5,485,000
Compensated absences	22,365		12,634		-	34,999
Other liability	 1,507,333		484,424			 1,991,757
Total	\$ 35,884,754	\$	15,799,930	\$	993,010	\$ 50,691,674

A component unit of MVCC is a party to an interest rate swap agreement. The swap agreement is in place for a 2004 fixed rate serial bond with a notional principal amount of \$5,485,000 at July 31, 2020. The swap agreement matures at the same time as the related bond, August 1, 2036. Under the terms of the agreement the component unit will continue to pay the bond holders interest at a fixed rate. The counterparty will reimburse the component unit a variable interest rate at 67% of LIBOR (0.36566% at July 31, 2020) while the component unit is obligated to pay the counterparty a fixed rate of 4.051%. Generally accepted accounting principles require derivative instruments to be recognized at fair value. The derivative instrument is a Level 3 instrument with a fair value of \$1,991,757 at July 31, 2020.

#### 12. NET POSITION AND FUND BALANCE

The government-wide financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

• Net Investment in Capital Assets—This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category. The tables on the following page are a reconciliation of the County's governmental activities and business-type activities net investment in capital assets.

Governmental activities:			
Capital assets, net of accumulated depreciation		\$	354,538,055
Related debt:			
Bonds payable	(155, 130, 189)		
Unamortized bond premium	(2,872,718)		
Deferred charge on refunding	178,721		
OTASC bonds, net of discount	(71,305,962)		
Serial bonds issued on behalf of MVCC	15,436,778		
Capital lease liability	(18,864,914)		(232,558,284)
Unspent proceeds reported within the Capital Projects Fund		_	4,615,466
Net investment in capital assets—governmental activities		\$	126,595,237
Business-type activities:			
Capital assets, net of accumulated depreciation	9	\$	264,325,296
Related debt:			
Serial bonds and EFC notes issued	(243,016,666)		
Unamortized bond premium	(49,901)		
Deferred charge on refunding	8,236	(	(243,058,331)
Unspent proceeds reported within the Sewer Fund			7,006,802
Net investment in capital assets—business-type activities	- - - -	\$	28,273,767

- **Restricted Net Position**—This category represents external restrictions imposed by creditors, grantors, contributors or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position*—This category represents net investment in assets of the County not restricted for any project or other purpose.

In the fund financial statements, nonspendable amounts represent net current financial resources that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. At December 31, 2020, the County did not report any nonspendable fund balance.

In the fund financial statements, restricted fund balances are amounts constrained to specific purposes (such as creditors, grants, contributors, or laws and regulation of other governments) through constitutional provisions or enabling legislation. As of December 31, 2020, the County had restricted funds as presented below.

				Capital		Total	
	General	D	ebt Service	Projects	]	Nonmajor	
	 Fund		Fund	 Fund		Funds	 Total
Handicapped parking fees	\$ 5,796	\$	-	\$ -	\$	-	\$ 5,796
Sheriff forfeiture	27,607		-	-		-	27,607
Debt	-		1,300,203	-		4,809,221	6,109,424
Capital projects	 		-	 2,143,711			 2,143,711
Total restricted fund balance	\$ 33,403	\$	1,300,203	\$ 2,143,711	\$	4,809,221	\$ 8,286,538

In the fund financial statements, committed fund balances are amounts subject to a purpose constraint imposed by a formal action of the County's highest level of decision-making authority, or by its designated body or official. As of December 31, 2020, the County Legislature has committed, by resolution, \$12,500,000 to fiscal stability, \$1,000,000 to other post-employment benefits, \$2,500,000 to health insurance payments and \$150,000 to economic development.

In the fund financial statements, assignments are not legally required segregations, but are subject to a purpose constraint that represents an intended use established by the County's Legislature, or by its designated body or official. The purpose of the assignments must be narrower than the purpose of the General Fund, and in the funds, other than the General Fund, assigned fund balance represent the residual amount of fund balance.

As of December 31, 2020, the following balances were considered to be assigned:

	General	N	Total Nonmajor	
	Fund	_	Funds	Total
Encumbrances	\$ 526,262	\$	440	\$ 526,702
Subsequent year's expenditures	7,525,292		-	7,525,292
Comprehensive planning activities	114,329		-	114,329
Tax certiorari	1,575,000		-	1,575,000
Specific use	 		984,877	984,877
Total assigned fund balance	\$ 9,740,883	\$	985,317	\$ 10,726,200

- Assigned to Encumbrances—Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures of monies are recorded, is employed as part of the County's budgetary control mechanism for all funds. Unencumbered appropriations lapse at fiscal year-end.
- Assigned to Subsequent Year's Appropriations—Represents available fund balance being appropriated to meet expenditure requirements in the 2021 fiscal year.
- Assigned to Comprehensive Planning Activities—Represents fund balance that is assigned to pay for comprehensive planning activities within the County.

- Assigned to Tax Certiorari—Represents fund balance that assigned to pay the judgments and claims in tax certiorari proceedings.
- Assigned to Specific Use—Represents fund balance within the special revenue funds that is assigned for a specific purpose. The assignment's purpose relates to each funds' operations and represents amounts within the funds that are not restricted or committed.

In the fund financial statements unassigned fund balance represents the residual classification of the government's General Fund, and could report surplus or deficit. As of December 31, 2020, the unassigned fund balance of the General Fund was \$10,079,202.

The County's policy is to expend fund balances in the following order: nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance.

#### 13. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund loans are short term in nature and exist because of temporary advances or payments made on behalf of other funds. All interfund balances are expected to be collected/paid within the subsequent year. Interfund transfers are routine annual events for both the budget and accounting process and are necessary to present funds in their proper fund classification.

Transfers are used primarily to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget required to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the fund making payments when due, and (3) move residual cash from closed projects.

Interfund loans and transfers of the County as of and for the year ended December 31, 2020 are presented below:

	Interfund								
Fund	F	Receivable		Payable					
Governmental funds:									
General Fund	\$	4,111,244	\$	8,379,194					
Debt Service Fund		4,212,125		3,185,625					
Capital Projects Fund		3,161,329		5,139,093					
Nonmajor funds		7,782,623		4,264,607					
Proprietary funds:									
Sewer Fund		2,146,592		341,556					
Workers' Compensation Fund				103,838					
Total	\$	21,413,913	\$	21,413,913					

	 Transfers in:													
			Debt		Capital		Total							
	General		Service		Projects	]	Nonmajor							
Transfers out:	 Fund		Fund	Fund			Funds		Total					
General Fund	\$ -	\$	17,751,501	\$	2,103,812	\$	8,560,158	\$	28,415,471					
Capital Projects Fund	-		4,095,843		-		-		4,095,843					
Total nonmajor funds	 20,000				-		-		20,000					
Total	\$ 20,000	\$	21,847,344	\$	2,103,812	\$	8,560,158	\$	32,531,314					

#### 14. LABOR CONTRACTS

Current employees are represented by five bargaining units with the balance governed by County rules and regulations. The CSEA Local 1000 – Nurses contract is settled through December 31, 2022, the UPSEU Blue Collar and UPSEU White Collar are settled through December 31, 2023, the Oneida County Sheriff's Department Employees – Local 1249 is settled through December 31, 2021, and the PBA is settled through December 31, 2020.

#### 15. COMMITMENTS

Encumbrances—Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. Open encumbrances are reported as an assignment of fund balance since such commitments will be honored through budget appropriations in the subsequent year. The County considers encumbrances to be significant for amounts that are encumbered in excess of \$2,000,000. As of December 31, 2020, the County's Sewer Fund has several outstanding construction commitments. These commitments relate to various Sewer treatment, facility improvements, consent order upgrades and repairs.

#### 16. TAX ABATEMENTS

The County is subject to programs entered into by Oneida County Industrial Development Agency ("OCIDA"). These programs have the stated purpose of increasing business activity and employment in the region. Economic development agreements are entered into by the OCIDA and incentives may include property tax abatements of any new property tax revenue realized from the increased assessed value of any incentivized project from the investment of private capital. The abatement agreements include a stipulated reduction pursuant to the limits set forth in State statute and rules. In the future these new revenues will increase periodically until the project is taxed at full assessed value. Assuming the IDA incentivized projects would have been completed absent tax abatement, the unrealized property tax revenue is \$3,186,917. However, during 2020 the County collected \$1,371,522 related to these new incentivized projects.

#### 17. CONTINGENCIES

Grants—The County receives significant financial assistance from numerous federal and state agencies. The receipt of such funds generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed expenditures resulting from such audits could become a liability of the County. The amount of disallowance, if any, cannot be determined at this time, although the County expects any such amounts to be immaterial.

Sewer District Consent Order—The County, as the permit holder for the part-County Sewer District, was served with a Complaint by the New York State Department of Environmental Conservation ("NYSDEC") on February 26, 2007, alleging violations of environmental statutes and regulations stemming from wet weather overflows at the Sauquoit Creek Pump Station. The County served an Answer to the Complaint on April 25, 2007. On July 11, 2007, the County and the State executed a Consent Order resolving the issues rose in the Complaint. The Consent Order required the payment of a fine of One Hundred Fifty Thousand Dollars (\$150,000), \$120,000 of which was paid on July 13, 2007 and the DEC is allowing the remaining \$30,000 was applied by the County to an Environmental Benefit Project for the Sauquoit Creek Basin. The Consent Order contains a compliance schedule which calls for the completion of a study of the system within three years and the implementation of any repairs called for in the study by October 31, 2014.

On July 7, 2010, the County submitted the Plan of Study called for in the Consent Order. The Plan of Study proposed a project completion date of December 31, 2020.

During 2011, the County negotiated a new consent order that includes an extended compliance schedule with NYSDEC to replace the consent order that was issued in 2007. The new order was approved the Oneida County Legislature on November 30, 2011, signed by the County Executive on December 7, 2011 and issued by NYSCEC on December 12, 2011. The new order reflected the results of the Plan of Study conducted in 2010 and it extended the completion date of the order, which includes a compliance schedule, to December 31, 2021. The County is in compliance with the deadlines in the new compliance schedule. The County plans to issue long-term debt to finance the project and, therefore, will record a liability as such financing is obtained. As of December 31, 2020, the County has issued \$231,792,331 of EFC bonded debt in response to the consent order. Of the total issued, \$8,891,196 has been repaid with District funds, leaving a balance of \$222,901,135. The County also has short-term EFC notes outstanding at December 31, 2020 of \$4,051,347.

Upper Mohawk Valley Memorial Auditorium Authority Project Funding Allocation Agreement—The County has entered into a tentative project funding allocation agreement with the Upper Mohawk Valley Memorial Auditorium Authority. Under this agreement, the County will contribute annual amounts of no more than \$970,000 toward the debt service for the Authority's pending 2021 bond issue. These contributions would be subject to annual budgetary appropriations adopted by the County Board of Legislators.

#### 18. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 7, 2021, which is the date the financial statements are available for issuance, and have determined there are no subsequent events, except what is discussed below and in Note 17, that require disclosure under generally accepted accounting principles.

- On April 22, 2021, the County issued \$6,195,000 in public improvement serial bonds. The bonds were issued at a rate of 5.0 percent and mature on March 15, 2028.
- On May 18, 2021, the County issued \$10,800,000 in public improvement serial bonds. The bonds were issued at a rate of 0.5 2.0 percent and mature on May 14, 2035.
- On July 31, 2021, the County refinanced the existing \$15,512,000 energy performance lease contract. The amended lease was issued in the amount of \$21,466,940. The lease was issued an interest rate of 3.25% with principal payments made annually beginning in 2022, with the final payment scheduled for 2039.

### Notes to the Required Supplementary Information For the Year Ended December 31, 2020

#### 1. OPEB LIABILITIY

Changes of Assumptions—Changes of assumptions reflect the effects of changes in the discount rate and the medical healthcare cost trend rate. The discount rate is based on a 20-year high-quality tax-exempt municipal bond index as of the measurement date. The discount rate in effect at January 1, 20201 is 2.74%, which decreased from 4.10% at January 1, 2019. The medical healthcare cost trend rates were updated to reflect current medical provisions and premiums and expected future experience.

#### **Oneida-Herkimer Solid Waste Management Authority**

Changes of Assumptions—Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The discount rate is based on a 20-year high-quality tax-exempt municipal bond index as of the measurement date. The discount rate in effect at January 1, 2020 is 2.74%, which decreased from 4.10% at December 31, 2019.

#### **Mohawk Valley Community College**

Changes of Assumptions—Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The discount rate is based on a 20-year high-quality tax-exempt municipal bond index as of the measurement date. The discount rate in effect at September 1, 2019 is 2.97% and was 3.91% as of September 1, 2018.

#### 2. BUDGETARY INFORMATION

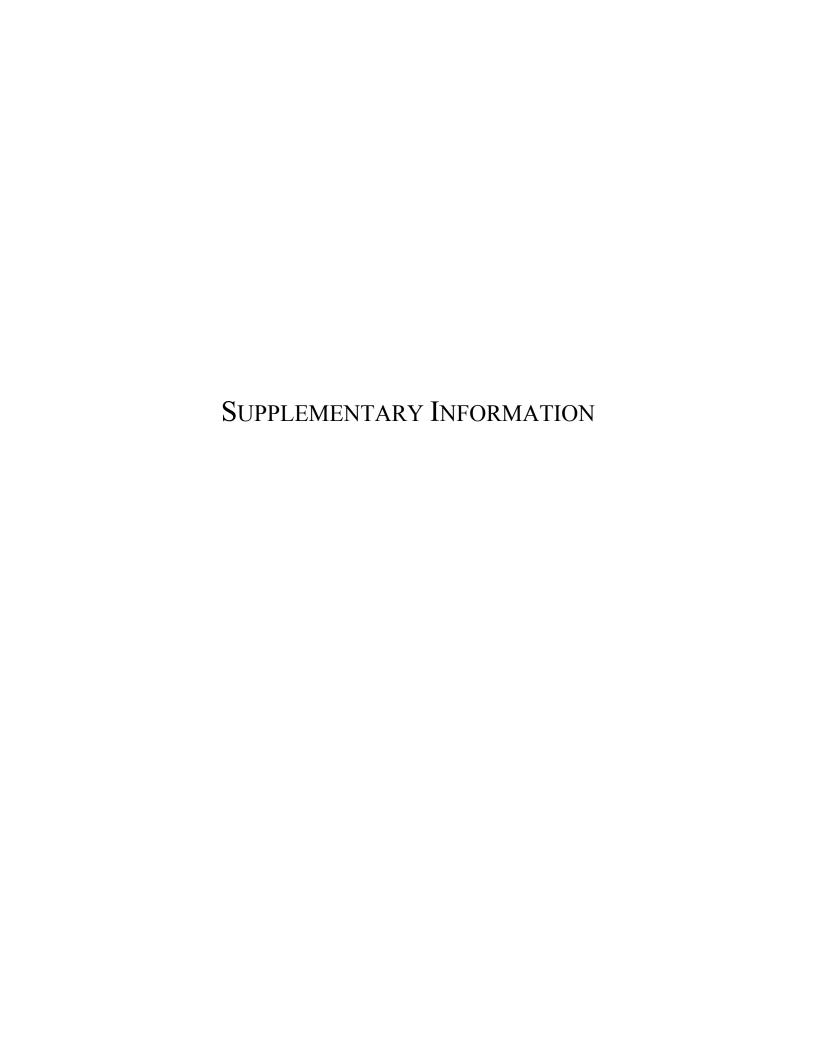

Budgetary Basis of Accounting—Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds, except the Capital Projects Fund and the Oneida Tobacco Asset Securitization Corporation, which adopts its own budget. The Capital Projects Fund is appropriated on a project length basis; appropriations are approved through a County Legislature resolution at the project's inception and lapse upon termination of the project.

The appropriated budget is prepared by fund, function, and department. Transfers of appropriations require the approval of the County Legislature. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the functional classification.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances.

Actual results of operations presented in accordance with GAAP and the County's accounting policies do not recognize encumbrances and restricted fund balance as expenditures until the period in which the actual goods or services are received and a liability is incurred. Encumbrances are only reported on the balance sheet of the governmental funds included within restricted, committed, or assigned fund balance. Significant encumbrances are disclosed in the notes to the financial statements. The General Fund original budget for the year ended December 31, 2020 includes encumbrances from the prior year of \$608,947.

#### Notes to the Schedule of Expenditures of Federal Awards Year Ended December 31, 2020

#### 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the County of Oneida, New York (the "County") under programs of the federal government for the year ended December 31, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position or cash flows of the County. The following notes were identified on the Schedule:

- (a) Includes all federal award programs of the County of Oneida, New York. The federal expenditures of the Oneida-Herkimer Solid Waste Management Authority, the Mohawk Valley Community College and the Oneida County Tobacco Asset Securitization Corporation have not been included.
- (b) Source: Catalog of Federal Domestic Assistance
- (c) Pass-through entity identifying numbers are presented where available.
- (d) Prepared under accounting principles generally accepted in the United States of America and includes all federal award programs.
- (e) A reconciliation to the financial statements is available.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or limited as to reimbursement. The County has not elected to use the 10 percent de minimis direct cost rate as allowed under the Uniform Guidance.

#### 3. NONMONETARY FEDERAL PROGRAMS

The County is the recipient of federal financial assistance programs that do not result in cash receipts or disbursements, termed "nonmonetary programs."

New York State makes payments of benefits directly to vendors, primarily utility companies, on behalf of eligible persons receiving Low-Income Home Energy Assistance (CFDA Number 93.568). Included in the amount presented on the schedule of expenditures of federal awards is \$10,521,112 in direct payments.

#### 4. MATCHING COSTS

Matching costs, i.e., the County's share of certain program costs, are not included in the reported expenditures.

#### 5. DEPARTMENT OF SOCIAL SERVICES – ADMINISTRATIVE COSTS

Differences between the amounts reflected in the Schedule of Expenditures of Federal Awards and the Department of Social Services' federal financial reports (RF-2 clams) are due to allocation of administrative costs to the individual federal programs.

#### 6. AMOUNTS PROVIDED TO SUBRECIPIENTS

Certain program funds are passed through the County to subrecipient organizations. The County identifies, to the extent practical, the total amount provided to subrecipients from each federal program, however, the Schedule does not contain separate schedules disclosing how the subrecipients outside of the County's control utilize the funds. The County requires subrecipients receiving funds to submit separate audit reports disclosing the use of the program funds.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable County Executive and County Legislature County of Oneida, New York:

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Oneida, New York (the "County") as of and for the year ended December 31, 2020 (with the Mohawk Valley Community College for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated September 7, 2021 (which report includes an emphasis of matter paragraph regarding the implementation of GASB Statement No. 84). Our report includes a reference to other auditors who audited the financial statements of the Oneida-Herkimer Solid Waste Management Authority, the Mohawk Valley Community College, and the Oneida Tobacco Asset Securitization Corporation, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the Oneida Tobacco Asset Securitization Corporation were not audited in accordance with Government Auditing Standards.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Honorable County Executive and County Legislature County of Oneida, New York:

#### Report on Compliance for Each Major Federal Program

We have audited the County of Oneida, New York's, (the "County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2020. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The County's basic financial statements include the operations of the Oneida-Herkimer Solid Waste Management Authority ("OHSWMA"), the Mohawk Valley Community College ("MVCC"), and the Oneida Tobacco Asset Securitization Corporation ("OTASC"), which reported receiving \$0, \$25,491,740, and \$0 in federal awards, which are not included in the County's Schedule of Expenditures of Federal Awards for the year ended December 31, 2020. Our compliance audit, described below, did not include the operations of the Mohawk Valley Community College because other auditors were engaged to perform an audit in accordance with the Uniform Guidance.

#### Management's Responsibility

The County's management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2020.

#### **Report on Internal Control Over Compliance**

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
