*Motion to Reconsider
and Amend.*

Hon. Gerald J. Fiorini
Chairman, Oneida County Board of Legislators
800 Park Ave
Utica, NY 13501

Re: Green Innovation Grant Program Resolution
Introductory No.: 94
Resolution No.: 2018-109

Dear Mr. Fiorini:

On May 9, 2018, the Oneida County Board of Legislators approved the above-referenced Resolution designating the Oneida County Executive as the person authorized to execute a future Green Innovation Grant Program Grant Agreement between Oneida County and the New York State Environmental Facilities Corporation. This Resolution was a prerequisite to our receiving a Grant Agreement from New York State.

Subsequent to the passage of that Resolution, the Planning Department was informed by New York State that an additional paragraph needed to be included in the designating Resolution. The suggested added language is:

“Oneida County authorizes and appropriates the local match as required by the Green Innovation Grant Program for the Sauquoit Creek Flood Bench Project under the GIGP program, this local match must be at least 10% of the GIGP eligible project costs of \$2,380,000. The total estimated project cost is \$2,380,000. The source of the local match shall be a grant from New York State and Municipal Facilities Program (“SAM”). The maximum local match shall not exceed \$380,000. The County Executive may increase the local match through the use of in-kind services without further approval from Oneida County.”

The deadline for submission of this Resolution and supporting documentation to the New York State is June 29, 2018, and the communications deadline for the June Board of Legislators’ meeting has already passed. Therefore, I am writing to you today to request that the Board

instead reconsider and amend the original Resolution at their June meeting, adding the language that New York State has requested.

A copy of the Amended Resolution has been prepared and has been attached to this letter. Please advise if you or the Board require any additional information or documentation concerning this matter. Thanks you in advance for your kind consideration.

Respectfully yours,

RE: Appointment of Commissioner of Social Services

Honorable Members:

In accordance with Article X, Section 1001, of the Oneida County Charter, I submit to you my appointment of Colleen Fahy-Box as Commissioner of Social Services for a term of five years at Grade M49, Step 11 with a salary of \$121,342.00.

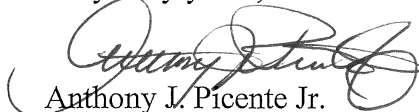

Colleen started working in Oneida County government as a DSS caseworker in 1983. She worked as a substance abuse counselor and in the Medicaid Division before entering the Services Division where she spent the majority of her career and eventually became director. She was appointed as Deputy Commissioner in 2012.

She has done an admirable job serving as interim Commissioner of Social Services since I appointed her to fill that role last November, and I am confident she will lead the department in an exemplary manner in a permanent capacity.

Therefore, I request that her appointment be placed on the agenda for consideration at your next meeting.

Thank you for the Board's kind attention to this matter.

Very truly yours,

Re: NYSDEC Consent Order R620060823-67 Modification

Dear County Executive Picente:

For over a year now, the Department has been working with NYSDEC to modify the existing consent order. The modified order has just been received from NYSDEC and requires approval by the Board of Legislators before it can be executed by the County. The purpose of the modifications were to eliminate the "semi-permanent" construction requirement in the existing consent order and to establish interim discharge limits for the plant while primary clarifiers were being demolished and replaced.

The "semi-permanent alternative" in the existing order required the construction of a pipeline directing 5MGD of flow from the new Sauquoit Creek Pumping Station forcemain directly to the secondary treatment system. Construction of this item was deemed unnecessary because the forcemain has not been constructed yet; there was physically no room on the plant grounds to construct the alternative and that significant flow reduction has been achieved from work within the existing municipal systems to achieve what the "semi-permanent" alternative was supposed to.

Interim discharge limits are necessary for operating the plant while the existing primary clarifiers are being demolished and replaced. During wet weather, the plant most likely will not be able to meet the existing limits in its permit because one half of the primary clarification will not be in service. The NYSDEC had to establish interim limits in the modified order so that during the construction process the plant would not be in violation of its permit.

It is extremely important to get the modified order executed as soon as possible so that interim discharge limits for the plant are in place. Construction cannot proceed until they are. In order to meet the consent order completion deadline of December 2021, construction needs to begin immediately on the primary clarifiers and the new high rate disinfection system as the contractor for this work has submitted a schedule that calls for the work to run to the consent order deadline. Should the process be delayed, the deadlines in the consent order could be missed, subjecting the County to stipulated monetary penalties as well as construction delay claims from the contractor.

Given the above, I respectfully request that this matter be considered by the Board of Legislators at their **June 13th meeting**. I am available at your convenience to answer any questions you or the Board may have.

Thank you for your consideration in this matter.

Sincerely,
**THE ONEIDA COUNTY DEPARTMENT OF

Oneida County
Board of Legislators

WAYS & MEANS

Honorable Members:

In order to close the County accounting records for 2017, the need for fund transfers appeared in various departmental appropriation accounts throughout the County. These transfers are required primarily due to the need to charge 2017 accounts for actual and anticipated 2017 expenditures occurring in 2018, as required under Generally Accepted Accounting Principles (GAAP).

The transfers are fully covered by surplus funds in the 2017 budgets of other related accounts and will not require the use of funds from the Fund Balance. In most cases, the following transfers are made from unencumbered funds in other appropriation accounts within the respective departments.

Several accounts were known to be running high during 2017, but the exact magnitude of the deficit was not known until GAAP charges were computed in January, February and March, 2018. GAAP rules also require us to recognize gross sales tax revenues and record amounts that are shared with the cities and towns in the County.

Therefore, in accordance with Section 610, Oneida County Administrative Code, I hereby request your Board approval for the following 2017 fund transfers. I also request that these closeouts be acted on at the **June 13, 2018** meeting.

Hon. Gerald J. Fiorini
Chairman, Oneida County Board of Legislators
800 Park Avenue
Utica, New York 13501

Dear Chairman Fiorini:

Please find enclosed, for your review and consideration, an agreement between Oneida County and the Verona Fire District.

The agreement proposes to provide \$1,800.00 in funding to the Verona Fire District for the purchase of tables and chairs to be used at its New London Volunteer Fire Department facility located at 7062 Cornell Street in Rome, New York. The facility serves as a shelter site in the event of an emergency and also hosts various events for the community. The tables and chairs would allow the facility to accommodate the public while serving these important functions.

If the enclosed meets with your approval, kindly forward to the Board of Legislators for consideration at their next meeting. Should you have any questions or concerns, or should you require any additional information, please do not hesitate to contact me.

Very truly yours,

Maryangela Scalzo
Assistant County Attorney
