SECTION 3 – SPOA ELIGIBILITY

To be eligible for services through the Adult Single Point of Access (ASPOA) Program, applicants must meet **all** of the following criteria. Please place a checkmark in each field where the answer is true.

_____ **The individual is 18+ years of age;**

_____ **The individual is willing to participate in these voluntary services;**

_____ **The individual has a primary DSM-5 diagnosis of a severe mental illness other than alcohol or substance use disorders, developmental disabilities, dementias, or mental disorders due to a general medical condition;**

- | | |
|-------------------------------|--------------------|
| 1. Primary diagnosis: _____ | ICD-10 Code: _____ |
| 2. Secondary diagnosis: _____ | ICD-10 Code: _____ |
| 3. Other diagnosis: _____ | ICD-10 Code: _____ |
| 4. Other diagnosis: _____ | ICD-10 Code: _____ |
| 5. Other diagnosis: _____ | ICD-10 Code: _____ |

-AND-

_____ **The individual is currently enrolled in SSI/SSDI due to a designated mental illness;**

-OR-

_____ **The individual must have documentation that they have experienced at least two of the following four functional limitations due to a designated mental illness over the past 12 months on a continuous or intermittent basis:**

_____ Marked difficulties in self-care (personal hygiene, diet, clothing, avoiding injuries, securing healthcare, or complying with medical advice).

_____ Marked restriction of activities of daily living (maintaining a residence, using transportation, day to day money management, accessing community services).

_____ Marked difficulties in maintaining social functioning (establishing and maintaining social relationships, interpersonal interactions with primary partner, children or other family members, friends, neighbors, social skills, compliance with social norms, appropriate use of leisure time).

_____ Frequent deficiencies of concentration, persistence or pace resulting in failure to complete tasks in a timely manner (ability to complete tasks commonly found in work settings or in structured activities that take place in home or school settings, individuals may exhibit limitations in these areas when they repeatedly are unable to complete errors in tasks or require assistance in the completion of tasks).

-OR-

_____ **Reliance on Psychiatric Treatment, Rehabilitation, and Supports:** A documented history shows that the individual at some prior time met the threshold for 3 (above), but the symptoms and/or functioning problems are currently attenuated by medication or psychiatric rehabilitation and supports. Medication refers to psychotropic medications which may control certain primary manifestations of mental disorder, e.g. hallucinations, but may or may not affect functional limitations imposed by the mental disorder. Psychiatric rehabilitation and supports refer to highly structured and supportive settings (e.g. Congregate or Apartment Treatment Programs) which may greatly reduce the demands placed on the individual and thereby, minimize overt symptoms and signs of the underlying mental disorder.

ELIGIBILITY CERTIFICATION: I certify that this individual, who is eighteen years or older, is functionally disabled due to mental health needs, and whose ability to remain in the community would be seriously jeopardized without the provision of community support services, meets the eligibility requirements listed above. I certify that I am the referent, and that this information is further justified in the attached mental health evaluation or other applicable assessment.
