## **Fox Tests Positive for Rabies in Whitesboro** *Oneida County Health Department Urges Residents to Recognize Signs of Rabies*

A fox has tested positive for rabies in Whitesboro. The fox was sent to the New York State Department of Health Wadsworth Center for testing on May 11, 2026 and positive results were reported on May 11, 2026. A dog was exposed to the fox and is quarantined. There were no human exposures.

Signs of rabies include:

- Animal acting strangely
- Animal acting mad
- Animal acting shy
- Animal getting unusually close
- Drooling or foaming from the mouth

If you see an animal, wild or stray, with these signs, do not approach it and stay away. If any animal is acting strangely, call your local animal control officer for help. Additional resources include:

- Nuisance Wildlife Control Operator: Licensed by the Department of Environmental Conservation (DEC)
- Wildlife Rehabilitator: Licensed by the Department of Environmental Conservation (DEC)
- Department of Environmental Conservation at 1-844-332-3267
- Local police department

Per NYS Public Health Law, all dogs, cats, and ferrets must be vaccinated by 4 months-old and then one year following the initial dose. Dogs and cats need to receive a booster dose every three years following. Ferrets must receive booster doses annually. For the safety of pets and the convenience of county residents, the Oneida County Health Department offers Rabies Vaccination Clinics throughout the year in various community locations:

- June 1, 2026 from 5 p.m. to 6:30 p.m. at the Annsville Highway Garage
- July 13, 2026 from 5 p.m. to 6:30 p.m. at the Vienna Town Garage

Additional rabies vaccination clinics will be offered in 2026.
