I. Overview

Oneida County is seeking to enter into a professional services agreement with a qualified vendor to provide Mobility Management Services to serve people, transportation providers and human service agencies through coordination, service analysis and development and the promotion of effective, collaborative solutions to meet the transportation needs throughout all of Oneida County.

Oneida and Herkimer Counties, located in the center of New York State, combine to form a small urban area surrounded by vast rural areas. The Herkimer-Oneida Counties Transportation Council (HOCTC) is the designated Metropolitan Planning Organization (MPO), and the regional entity charged with planning and programming federal transportation funds for highways, transit, non-motorized transportation, and other means of moving people and goods in central New York State. The HOCTC MPO works within federal transportation requirements to guide the development of a multimodal transportation system within the Metropolitan Planning Area (MPA). HOCTC seeks proposals from qualified firms, individuals, or teams of firms and/or individuals to provide the work outlined in this RFP. HOCTC, on behalf of its host and member agencies and jurisdictions, will administer the consultant contract and will serve as project manager.

II. Purpose

Oneida County, New York, is soliciting proposals for Mobility Management Professional Support Services to serve people, transportation providers, and human service agencies through coordination, service analysis, development and promotion, and practical collaborative solutions to meet the transportation needs of all people. Mobility Management in Oneida County seeks to mobilize services that enhance the quality of life for people of all ages, abilities, and income levels. This will occur through transportation mobility services that assist people in accessing medical care, shopping, employment, and social activities.

Oneida County will select an entity with the appropriate resources, technical and professional skills, and experience to improve Mobility Management Services throughout Oneida County. A lack of reliable access to transportation forms a significant barrier to employment and access to everyday health, human services, and social programs. Additionally, no single private or public transportation provider provides regular service to all populations across the county, thus making transportation services in Oneida County a patchwork of public, private, nonprofit, and agency transportation providers.

III. Background

Oneida and Herkimer Counties are located in central New York State and encompass a geographical area of 2,716 square miles. The counties have a combined population of 289,577 (American Community Survey, 2023) and are characterized as rural and 81% of roadways are of the local jurisdiction. The population in disadvantaged communities is 4.35% and 7.64% respectively, and 14.6% in Oneida County and 13.3% of the population in Herkimer County live in poverty. In the 2023 American Community Survey (ACS), people with disabilities comprise 15.2% of the regional population. By county, 15.1% of Oneida County's population has a disability and 15.8% of Herkimer

County's population has a disability. According to the 2023 ACS Estimates, 19.4% of the total population in Oneida County and 21.6% of the total population in Herkimer County is age 65 or older.

The urban area boundaries and surrounding Herkimer and Oneida Counties are situated between Syracuse and Albany, NY. The region's population centers are oriented primarily along the east-west Mohawk River Valley corridor. The entirety of the two counties, encompassing both urban and rural areas, is the HOCTC MPA. The two counties are each nearly the same physical size (Oneida is 1,212 sq. mi. and Herkimer is 1,411 sq. mi.), however, Oneida County has approximately three times the population of Herkimer County. Herkimer County is predominantly rural, with vast tracts of wilderness and other protected conservation areas. The two counties contain the urban areas of Ilion-Herkimer, Oneida, Rome, and Utica. Oneida County contains 45 municipalities (3 cities, 16 villages, and 26 towns). Herkimer County contains 30 municipalities (1 city, 10 villages, and 19 towns).

IV. Project Objectives

Ensuring safe, accessible, and desirable transportation in the region is central to the HOCTC mission and is reflected in HOCTC's most recently adopted Going Places 2045 Long-Range Transportation Plan, Coordinated Human Services Transportation Plan 2025-2028 and Oneida & Herkimer County SS4A Safety Action Plan which collectively embody the goals of "Improving the scope and coordination of the transit system to enhance mobility options for those that cannot or will not rely solely on the automobile,"¹ and provide a reference for strategic approaches to provide mobility and accessibility opportunities to:

- Ensure sufficient mobility and adequate access to places of work.
- Expand intercity and rural public transportation.
- Support multimodal accessibility for all travelers including the mobility disadvantaged.
- Enhance existing facilities to provide better bicycle and pedestrian integration within the transportation network; and
- Increasing safety and reducing conflicts among transportation modes by evaluating operations and transit system improvements from a multi-modal lens.

V. Scope of Work

Mobility management encourages coordination between multiple providers and develops or promotes shared services to expand transportation access while reducing costs to providers and individual members of the public. Anticipated Mobility Management professional services include:

- A. Assist in promoting, enhancing, and facilitating access to transportation services for rural residents, including integrating and coordinating services designed for individuals with disabilities and older adults.
- B. Support HOCTC staff in short-term management activities to plan and implement coordinated services funded by 5311 and 5310.
- C. Collaborate with Oneida County to create a centralized information hub for available mobility and transportation services. This hub will serve as a static repository for transit resources, passenger eligibility, service and cost information, and links to external resources.
- D. Assist in forming and managing a Regional Mobility Coordination Council. The "Coordination Council" members may include current HOCTC 5311 recipients, transportation providers, and HOCTC Transportation Planning Committee (TPC) members. In this support role, the mobility manager would collaborate with HOCTC staff in organizing and managing the committee's initial setup, develop quarterly meeting agendas, provide presentations or speakers on national best practices in mobility management, and support collaboration among regional transit, transportation, and mobility providers in HOCTC.
- E. Supporting HOCTC staff in establishing quarterly performance metrics and reporting processes for recipients, including a system for collecting operational data (e.g., ridership, key origins, destinations). The data collected will assess recipients' overall effectiveness and performance, helping HOCTC refine program goals and objectives.
- F. Mobility Management Oversight: The role of the mobility manager for this effort is not to directly schedule rides or operate transit services. Instead, one of the anticipated functions will focus on supporting agencies and transportation providers as a regional transportation liaison who will be available to assist in coordinating rides between services and ensuring providers meet established performance standards. This includes managing data collection systems, reporting service performance, and ensuring compliance with funding requirements, particularly for 5311 program recipients. Additionally, assist Oneida County in identifying opportunities to flex funding and service delivery between 5311 and 5310 providers. The approach should leverage both programs to enhance rural and urban mobility services, ensuring a comprehensive and integrated mobility solution across regions.
- G. Grant Technical Support: Assist Oneida County by providing policy guidance and grant technical support designed to identify and secure additional funding sources for rural transportation services and closing last-mile connectivity. The role includes researching grants, identifying best practices, and offering strategic advice on securing funding for mobility-related projects such as microtransit, micromobility, mobility as a service (MaaS) models, van and car-sharing, and transit services focused on closing rural mobility gaps.
- H. Assist in transit analysis, as needed. This may include operational, planning, or fiscal analysis and function as a technical support mechanism for HOCTC staff and transit operators.

- I. Ensure that Oneida County complies with federal guidelines and NYS DOT policies and procedures and that the 5311 program is administered correctly and appropriately while meeting the needs of Oneida County's rural communities.

Additional coordination activities that Oneida County may request include:

- a. Coordinate and support the Oneida County Rural Transit (OCRT) system operated by CENTRO.
- b. Monitoring OCRT services, including developing and conducting passenger surveys, ridership, and operational statistical analyses and evaluations.
- c. Management of additional transportation assessment projects.
- d. Other duties as agreed upon or required are necessary to support transportation services in Oneida County.

Project Goals:

- Increase the availability of transportation options and coordinate public, private, nonprofit, and volunteer services.
- Improve the delivery of transportation services.
- Generate efficiencies in operation that can lead to increased level of services and transit ridership.
- Encourage cooperation and coordination among local and regional transportation providers.

VI. Required Contents & Submission Instructions for Proposal Package

Proposers may be firms, individuals, or teams of firms and/or individuals. Please note that materials submitted to Oneida County are subject to the Freedom of Information Law (FOIL). If a proposer provides material(s) of a confidential nature for disclosure to third parties, the proposer should indicate the specific material(s) it considers confidential. Oneida County assumes no responsibility for any loss or damage resulting from any determination requiring disclosure of information pursuant to FOIL.

A. Required Contents

Each proposal shall be concise and comprehensive. 7. Minority-Owned Business Enterprise (MBE) and Women-Owned Business Enterprise (WBE) and Disadvantaged Business Enterprise (DBE) Programs. Oneida County will make every effort to comply with U.S. DOT 49 CFR Part 26, to ensure that equal opportunity to participate

is afforded to all entities. The Federal Disadvantaged Business Enterprise (DBE) program promotes the use of DBEs in all types of federally assisted contracts and procurement activities and does not apply to 100% state or locally funded contracts. The Federal DBE program is a separate program and subject to different requirements than the New York State (NYS) Minority Business Enterprise (MBE) and Women-owned Business Enterprise Program (WBE).

The Oneida County M/WBE goal for Oneida County is 1.6 %. The FTA DBE transportation program goal for FFY 2025 is 4.62%.

Department of Taxation and Finance or the covered agency, as defined by Tax Law § 5-a, discovers that the certification, made under penalty of perjury, is false, then such failure to file or false certification shall be a material breach of this contract and this contract may be terminated, by providing written notification to the Contractor in accordance with the terms of the agreement, if the covered agency determines that such action is in the best interest of the State.

- (v) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside, in a separate account, assets for the meeting of obligations under the plan or program.
- (vi) (A) The contracting officer shall require that any class of laborers or mechanics which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination.  - (2) The classification is utilized in the area by the construction industry; and
 - (3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (1)(v)(B) or (1)(v)(C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(2) Withholding - The recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the grantee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) Payrolls and basic records

(i) Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii)(A) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the recipient for transmission to the Federal Transit Administration. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under section 5.5(a)(3)(i) of Regulations, 29 CFR part 5. This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-00014-1), U.S. Government Printing Office, Washington, DC 20402. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors.

(ii)(B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

- (1) That the payroll for the payroll period contains the information required to be maintained under section 5.5(a)(3)(i) of Regulations, 29 CFR part 5 and that such information is correct and complete;
- (2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;
- (3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(ii)(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (3)(ii)(B) of this section.

(ii)(D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.

(iii) The contractor or subcontractor shall make the records required under paragraph (3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the Federal Transit Administration or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

(4) Apprentices and trainees –

(i) Apprentices - Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training,

or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator of the Wage and Hour Division of the U.S. Department of Labor determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees - Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the

wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity - The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

(5) Compliance with Copeland Act requirements - The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

(7) Contract termination: debarment - A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

(8) Compliance with Davis-Bacon and Related Act requirements - All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards - Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of Eligibility - (i) By entering into this contract, contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1). (ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1). Termination shall be effectuated by serving a notice of termination to contractor setting forth the manner in which contractor is in default. Contractor shall only be paid the contract price for

supplies delivered and accepted, or for services performed in accordance with the manner of performance set forth in the contract.

If it is later determined by the recipient that contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of contractor, the recipient, after setting up a new delivery or performance schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.

c. Opportunity to Cure (General Provision) the recipient in its sole discretion may, in the case of a termination for breach or default, allow contractor an appropriately short period of time in which to cure the defect. In such case, the notice of termination shall state the time period in which cure is permitted and other appropriate conditions.

If contractor fails to remedy to the recipient's satisfaction the breach or default or any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by contractor or written notice from the recipient setting forth the nature of said breach or default, the recipient shall have the right to terminate the Contract without any further obligation to contractor. Any such termination for default shall not in any way operate to preclude the recipient from also pursuing all available remedies against contractor and its sureties for said breach or default.

d. e. Termination for Convenience (Professional or Transit Service Contracts) the recipient, by written notice, may terminate this contract, in whole or in part, when it is in the recipient's interest. If the contract is terminated, the recipient shall be liable only for payment under the payment provisions of this contract for services rendered before the effective date of termination.

g. Termination for Default (Transportation Services) If contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. Contractor and the recipient shall agree on payment for the preservation and protection of goods. Failure to agree on an amount shall be resolved under the Dispute clause. If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

h. Termination for Default (Construction) If contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified, or any extension, or fails to complete the work within this time, or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. the recipient shall terminate by delivering to contractor a notice of termination specifying the nature of default. This liability includes any increased costs incurred by the recipient in completing the work.

Contractor's right to proceed shall not be terminated nor shall contractor be charged with damages under this clause if:

1. Delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of contractor. Examples of such causes include: acts of God, acts of the recipient, acts of another contractor in the performance of a contract with the recipient, epidemics, quarantine restrictions, strikes, freight embargoes; and
2. Contractor, within 10 days from the beginning of any delay, notifies the recipient in writing of the causes of delay. If in the recipient's judgment, delay is excusable, the time for completing the work shall be extended. The recipient's judgment shall be final and conclusive on the parties, but subject to appeal under the Disputes clauses.

If, after termination of contractor's right to proceed, it is determined that contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if termination had been issued for the recipient's convenience.

i. Termination for Convenience or Default (Architect & Engineering) the recipient may terminate this contract in whole or in part, for the recipient's convenience or because of contractor's failure to fulfill contract obligations. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature, extent, and effective date of termination. Upon receipt of the notice, contractor shall (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the recipient all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process. If termination is for the recipient's convenience, it shall make an

equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services. If termination is for contractor's failure to fulfill contract obligations, the recipient may complete the work by contract or otherwise and contractor shall be liable for any additional cost incurred by the recipient.

If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

j. Termination for Convenience or Default (Cost-Type Contracts) the recipient may terminate this contract, or any portion of it, by serving a notice of termination on contractor. The notice shall state whether termination is for convenience of the recipient or for default of contractor. If termination is for default, the notice shall state the manner in which contractor has failed to perform the requirements of the contract. Contractor shall account for any property in its possession paid for from funds received from the recipient, or property supplied to contractor by the recipient. If termination is for default, the recipient may fix the fee, if the contract provides for a fee, to be paid to contractor in proportion to the value, if any, of work performed up to the time of termination. Contractor shall promptly submit its termination claim to the recipient and the parties shall negotiate the termination settlement to be paid to contractor. If termination is for the recipient's convenience, contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a notice of termination for default, the recipient determines that contractor has an excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of contractor, the recipient, after setting up a new work schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.

 - (2) The documents cited in that U.S. DOL certification for the Project,
 - (3) Any alternative comparable arrangements that U.S. DOL has specified for the Project, and
 - (4) Any revisions that U.S. DOL has specified for the Project,
2. Special Warranty When its Project involves public transportation operations, and is financed with funding made available or appropriated for 49 U.S.C. § 5311, as amended by Map-21, for former 49 U.S.C. § 5311 in effect in FY 2012, or a previous fiscal year, or for section 3038 of TEA-21, as amended by section 3039 of SAFETEA-LU, U.S. DOL will provide a Special Warranty for those projects, including projects under the Tribal Transit Program.  - 1. The U.S. DOL Special Warranty for its Project,
 - 2. Documents cited in that Special Warranty,

3. Special Arrangements for 49 U.S.C. § 5310 Projects. The Recipient understands and agrees, and assures that any Third Party Participant providing public transportation operations will agree, that although pursuant to 49 U.S.C. § 5310, and former 49 U.S.C. §§ 5310 or 5317, FTA has determined that it was not “necessary or appropriate” to apply the conditions of 49 U.S.C. § 5333(b) to Subrecipients participating in the program to provide public

transportation for seniors (elderly individuals) and individuals with disabilities, FTA reserves the right to make the following exceptions:

- (a) FTA will make case-by-case determinations of the applicability of 49 U.S.C. § 5333(b) for all transfers of funding authorized under title 23, United States Code (flex funds), and
